BUDGET MESSAGE FROM CHAIR

The Newtown Public Schools, along with the town of Newtown, has faced many challenges in the past year. As the recovery process continued, the system dealt with many changes with regard to staff turnover, particularly at the administrative level, addressing state mandates without adequate funding, and addressing complex needs, such as security and mental health programs in our schools, as a result of December 14th. While addressing these challenges the Board of Education has stayed committed to the mission of Newtown Public Schools which reads:

The mission of Newtown Public Schools, a partnership of students, families, educators, and community, is to ***inspire each student to excel*** in attaining and applying the knowledge, skills and attributes that lead to personal success while becoming a contributing member of a dynamic Global community. We accomplish this by creating an unparalleled learning environment characterized by high expectations, quality instruction, continuous improvement, and civic responsibility.

In an effort to support this mission, the Board has adopted the following goals and has adopted a budget we feel supports these goals.

- 1. Meet student and staff needs resulting from the events of December 14, 2012.** While the Board had addressed declining enrollment by decreasing staff where appropriate, we have also been sensitive to instances where it is more appropriate to have smaller class sizes to address recovery. The Board's budget provides for the same level of security the district has experienced in the current year with the change to a School Security Officer (SSO) program, which has been piloted in other districts, and will be more cost effective than our current model of using police overtime. Much of the security needs will be funded by the Department of Justice Grant and the SERV Grant.
- 2. Support the Newtown High School preparation for 2015-16 NEASC accreditation.** The district has found a no cost solution for the preparation process for the NEASC committee visit. This effort includes the completion of a lengthy self-study report and collection of artifacts that substantiate the high school's efforts in meeting accreditation standards. Administration at the High School is currently overseeing this process.
- 3. Provide an educational infrastructure to support the (a) maintenance of existing and expanding technology requirements (including Bring Your Own Device) (b) mandated implementation and assessment of new CT standards (Common Core State Standards) (c) implementation of recommended security measures (d) mandated educator evaluation plans.**

The technology budget calls for funding to replace obsolete equipment in several schools, to support the district's iPad program and to address certain security initiatives. While this area will continue to be a challenge for the Board of Education, it is necessary to prepare for the implementation of the Smarter Balance Testing which will begin this year as a component of Common Core and the Teacher Evaluation Plan, the district is working to implement as a result of state mandates. One area of note is the staffing for the technology department, which has remained level even with increased need due to the dependency on technology to support State mandated testing and other initiatives, the age of equipment in the district, and the additional equipment introduced with the security initiatives.

Board of Education's Requested Budget for 2014-2015

- 4. Implement all activities listed in the Newtown Public Schools Coherence Plan.** Highlights of the Coherence Plan include oversight, guidance and management of the new Sandy Hook School construction process; the implementation of the School Emergency Response to Violence (SERV) grant; and development of a coherent, focused, constancy of organizational purpose. This comprehensive plan was developed by many stakeholders in our district. The Board will continue to use this plan as a guide, as will our new Superintendent, who will begin in mid-April.
- 5. Plan for future needs of the Newtown Public School system.** The Board has agreed to provide funds to conduct a new enrollment study, projected to be completed by November of 2014. In addition, the Board has also committed to strategic planning, to be completed by March of 2015. Through strategic planning and an updated enrollment projection study, data will be gathered for informed decisions concerning efficient use of facilities, technology and security needs. Any decisions made with regard to facility changes could be implemented as early as the 2016-17 school year and we look to work in collaboration with municipal government to make the best decision for the school district and the community as a whole.
- 6. Investigate the possible collaboration with municipal government to look for ways to provide better efficiencies and more transparent operations in administrative overhead areas.** The Board of Education welcomes the opportunity to continue collaboration with municipal government, the most recent example of which was seen in the development of the SSO program for the district. Implementation of the program could save close to \$250,000, which will be seen in the municipal government budget. The Board of Education is committed to working with town leaders in developing a security plan for funding district security in the coming years.

The Board of Education submits to you a flat (0% increase) budget for your consideration. We feel we have addressed the concern of spending in light of declining enrollment while continuing our pursuit of rigorous education for our students and addressing state mandates. We will continue to evaluate spending to remain an efficient school district.

Sincerely,

Debbie Leidlein
Chair, Newtown Board of Education

MISSION STATEMENT

OUR MISSION

The mission of Newtown Public Schools, a partnership of students, families, educators, and community, is to *inspire each student to excel* in attaining and applying the knowledge, skills and attributes that lead to personal success while becoming a contributing member of a dynamic global community. We accomplish this by creating an unparalleled learning environment characterized by high expectations, quality instruction, continuous improvement, and civic responsibility.

WE BELIEVE THAT:

- Each individual is unique and has value
- Everyone can and will learn well
- It takes effort and persistence to achieve one's full potential
- High expectations inspire a higher level of performance
- Honesty, integrity, respect, and open communication build trust
- Quality education expands the opportunities for individuals and is vital to the success of the entire community
- Educating children is a shared responsibility of the entire community
- Family is a critical influence in each individual's development
- Understanding all forms of diversity is essential in the global society
- All individuals are responsible for their behavior and choices
- Educated and involved citizens are essential for sustaining a democratic society
- Everyone has the responsibility to contribute to the greater good of the community
- Continuous improvement requires the courage to change

Board of Education's Requested Budget for 2014-2015

EDUCATION BUDGET CONSIDERATIONS

The education budget requires the consideration of many factors. The understanding and “funneling” of these consideration impacts its bottom line. Sometimes questions and/or inaccurate information enters the process creating a “road block” to clear understanding of information and subsequently an inability to make informed budget-related decisions.

Influential factors of the budget include:

- Guidance from Board of Finance
- Provisions to deal with the issues resulting from the 12/14 tragedy
- Inflation
- District Demographics
- Town Budget
- Constraints
- Funded and Unfunded Mandates
- Student Needs
- Voter Opinion
- Union Commitments
- Grant Specifications
- State Education Laws & Expectations
- Strategic Goals & Objectives
- State & Federal Laws, such as:
 - IDEA
 - NCLB
 - ESEA
 - Minimum budget requirements

Final Voter Approved Education Budget

Board of Education's Requested Budget for 2014-2015

SUPERINTENDENT'S BUDGET MESSAGE

Demographers tell us that population is declining in most areas of New England. This means that towns are competing to draw new residents to their communities, which is necessary to protect property values. When demand exceeds the supply of homes, prices go up and decline when demand is less than supply. A major factor in protecting property values by attracting home buyers to Newtown is the school system.

Even age-restricted condominium owners have a great stake in the school system because their property taxes are impacted when the value of homes with children decline at a greater rate than their condos. Buyers of four and five bedroom homes are usually families with children and if they come in lower numbers than other towns in the region it will place a greater tax burden on condominium owners because the value of their condos will decline more conservatively than many homeowners. If the vision is for a dynamic Newtown reflective of all age groupings, the school system must be a magnet to help draw new residents.

What are some questions the overview of this budget will help answer?

1. Over time has the Newtown school system been a cost effective district?

Looking back at the last 30 years, Newtown's rank in net current per pupil expenditures is relatively constant. Rankings range between 134 to 149 out of 169 towns in Connecticut. This year our rank is 120. To say that we are frequently in the bottom 20% of net current pupil expenditures is a fair statement. Cost effective also means that our academic results significantly exceed our expenditure rankings. While we did not take the Mastery Test last year in the elementary, intermediate and middle schools because of the tragedy at Sandy Hook School, we did maintain our normal testing program at the high school. It's important to note that even in our most difficult school year Newtown High School was among the top 15 high schools in the state, out of 181 high schools, to receive the highest CAPT school classification status of "excelling".

Newtown High School was also cited by the College Board's Association as one of only 37 high schools in the state that was able to increase the number of students taking AP courses and maintained or improved the results of the AP test scores.

2. In what ways has the school system worked to lessen the impact on local taxpayers?

The Newtown School system has worked diligently since the tragic events at Sandy Hook School to address needs emanating from that terrible day. It was immediately apparent that there would be a need for a greatly expanded mental health support system within the entire school district. District leadership working with government officials formulated an action plan to pursue significant federal resources. Dr. Melissa Brymer, Director of Terrorism and Disaster Programs at the National Center for Child Traumatic Stress at UCLA, was hired as a consultant for the school system to work with the central office team to complete the application for the SERV (School Emergency Response to Violence) Grant. Specifically, the district was given \$1,303,195 in Phase I of the SERV Grant which ran through August of 2013 and has been approved for Phase II expenditures totaling \$1,938,913 through August 15, 2014. Between this school year and the last school year, the work of the school system coupled with the support of the federal government meant that we did not have to seek \$3,242,108 from local taxes to address our mental health support program for students, staff and families.

The comprehensive mental health team formed through the SERV Grant includes external contracted resources from Wellmore and Clifford Beers Institute, as well as valuable assistance from Newtown Youth and Family Services. Thirty-three positions such as school psychologists, social workers, guidance counselors and an assistant principal comprise a team addressing the unparalleled circumstances impacting our staff and students. Also included in the SERV Grant are a guidance counselor at St. Rose School, a consultant for Fraser Woods School and four security positions.

The tragedy at Sandy Hook School also stimulated a review of security in school systems throughout the United States. Most states, including Connecticut, are developing security standards. Many school systems, including Newtown, have embarked upon changes to school security. Some resources in the form of additional school security personnel were put into the Board of Education's 2013-2014 budget and the contingency fund in the town budget has been used to supply a police officer to Head O'Meadow, Middle Gate and Hawley Schools and to offset some costs for the Monroe Police Department protection of the Sandy Hook School at Chalk Hill. Some of the initial funding running through June of 2013 was provided by the Department of Justice Grant in the amount of \$511,016 to provide for security, building hardening and wellness. This amount went to the Town's General Fund.

**Board of Education's Requested Budget for 2014-2015
SUPERINTENDENT'S BUDGET MESSAGE**

The leadership of the Newtown school system also had an opportunity to utilize individual offers from various companies to assist in security. The value of these contributions is \$1,216,089. Specifically, through the generosity of private vendors and the work of the school system, the following has been made possible through donations.

<u>Company Name</u>	<u>Description</u>	<u>Value</u>
Cisco through Atrion	Network switches & VoIP Phones and routers for SHS Wireless system for SHS & MGS Replacement of obsolete Firewall Upgraded hardware for the Town & district-wide phone system	\$596,000 + labor
Advance Security Technologies	Video surveillance, door access control, intrusion detection control panel	\$472,611+labor
PCMall Gov	Wireless access points at Hawley	\$3,297
HP-Tyler Renkert	Printer for SHS Computers to view videos	\$1,200 \$7,200
Charter	Extended network to include Chalk Hill and maintain connectivity to SHS	\$15,000
Verizon	Interior cellular call repeater system at Chalk Hill	\$40,199
Oracle	Funds for security systems in district	\$25,000
Dell	Discount on servers	<u>\$55,582</u>
Total		\$1,216,089

Between mental health and school security \$4,969,213 was utilized instead of local tax dollars.

The school system has also worked to support the outstanding leadership of the First Selectman Pat Llodra to secure funding from the State of Connecticut to replace Sandy Hook School. The State of Connecticut is providing \$50,000,000 to cover the total cost of demolition of the former Sandy Hook School and the construction of a new school.

The school system participates annually in a purchase coop whose membership includes approximately 165 other school systems, towns, magnet schools, private schools, regional service centers, and some schools in Massachusetts. This economy of scale enables us to get cost savings on purchasing many categories of school supplies which have averaged 20 to 25%. We also investigate participating in a purchasing consortium for oil but have found because of the size of our oil tanks and nearness to New Haven that we frequently get better prices by simply participating with the Town of Newtown.

Board of Education's Requested Budget for 2014-2015
SUPERINTENDENT'S BUDGET MESSAGE

Energy management has been a constant part of the Newtown school system for many years. Through the replacement of less efficient equipment in the area of lighting, heating and ventilation, the school system has worked diligently to reduce energy consumption. It is estimated that we have been able to reduce energy consumption by 1.3 million kilowatts during the last three years or about \$160,000.

We also have been sensitive to the market and have sought to take advantage of the fact that natural gas is more cost effective than oil. This past year we converted approximately two-thirds of Hawley School to gas for a savings of \$42,429 and will be looking at our long term planning to try and bring natural gas to both Head O'Meadow School and Middle Gate School and convert the Middle School burners. The High School and Intermediate School currently have the capacity to burn natural gas, in addition to oil. A conservative estimate in the savings of using gas over oil on a yearly basis would be \$250,000.

The school system is in its second year of implementing the reorganization of our transportation system. The first year savings were \$935,520 less than what was spent in the prior year. Currently it is estimated the total five year savings will be approximately \$2,900,000.

Town departments and the school system have a long history of working together. We get important assistance from the roads department for maintaining our fields, vehicles and snow plowing while we do small engine repair and provide electrical, plumbing and HVAC services to the town. The Town of Newtown Finance offices have begun using the same systems software as the school district for payroll, accounts payable and human resources, with an estimated annual savings for the Town when compared to their prior software of \$21,000. We continue to work diligently with the town to seek ways that we can meet our needs while being cost effective.

The most recent example of collaborative efforts is the cooperative exploration for school security options between the First Selectman's office and the Board of Education to visit school systems that have implemented a program which permits retired policemen to, after receiving special training, carry a weapon. The cost of such a program compared to having active, on-duty police, would represent a very significant savings. This budget provides for the replacement of three police officers who are currently being paid time and a half out of the Town's contingency budget on a daily basis with retired police officers who will be trained by the Connecticut State Police and supervised by our existing Director of Security. They will also have a very close training and work relationship with the Newtown Police Department. This will save the Town an estimated \$300,000 next year.

We continue to work diligently with the Town to seek ways that we can meet our needs while being cost effective.

We will institute tuition for non-special education students attending the district pre-school program. It is estimated that this tuition will produce an estimated \$50,000 to offset the local program costs.

Board of Education’s Requested Budget for 2014-2015
SUPERINTENDENT’S BUDGET MESSAGE

3. What are the drivers of cost for the 2014-2015 school budget?

Because we are a labor intensive, service-oriented enterprise, the salaries and benefits will always be major drivers of the budget. If all positions which were originally in the 2013–2014 budget were filled for 2014-2015, the following would be the cost:

Contractual raises covered by the teacher’s unions	\$ 969,150
Contractual raises covered by the administrators, custodians, secretaries and paraeducators	\$ 109,252
<u>Increases in other drivers:</u>	
Medical benefits (estimated to be up a minimum of 4%)	\$ 255,204
Worker’s compensation and our general liability insurance	\$ 20,919
Third year of the transportation contract cost increase	\$ 66,803
Estimated special education transportation cost (in and out of the district)	\$ 82,209
Technology equipment	\$ 53,341
Gift for essential software in 2013-14 budget	\$ 50,000
A reduction in the IDEA Funding for Pupil Services positions	<u>\$ 120,662</u>
Total	\$1,727,540

There are some other drivers whose costs are not yet fully determined. The gasoline and diesel fuel have not been bid. Out-of-district tuition rates are not known for 2014-2015. The cost savings related to having an interim superintendent will not be available next year.

4. How will this budget acknowledge the declining enrollment to help lessen the cost drivers of the salaries?

Work on eliminating positions commenced this past summer. Enrollment was reviewed prior to the beginning of the new school year and selected positions were not filled. This resulted in three elementary positions being left vacant as well as a .1 position at the Intermediate School, a .2 math and .2 social studies positions at the high school and a special ed position. For the 2014-2015 school year five additional elementary teaching positions, three positions at the Intermediate School, four cluster teachers at the middle school and an art position at the high school have been eliminated. Two other teaching positions have been scheduled for elimination with the specific location of those positions to be determined at a later date based upon enrollment data.

Taking into account all of the fractional adjustments we have 20.13 certified positions less in the proposed budget.

The 2014-2015 budget does not contain the following positions: three part time clerical positions (1.35 FTE) and two custodial positions.

Special education is the only area which has new staffing allotted to it for the coming school year. A full time position at the middle school and a .5 transitional teacher at the high school are necessary to meet our responsibilities. So are the 1.71 job coaching positions which are assigned to the high school and are non-certified positions.

In summary, we have a net reduction of 18.34 certified positions. When combined with the changes to non-certified positions, we have an estimated savings reflected in the proposed budget of \$1,221,436. In addition, the budget assumes a savings of \$325,000 from staff turnover. Taken together, approximately \$1,546,000 has been used to offset cost increases.

Board of Education's Requested Budget for 2014-2015
SUPERINTENDENT'S BUDGET MESSAGE

5. How is the school system acknowledging how it will embrace continuous improvement through both short and long term planning for future needs?

The district will undertake a number of important initiatives which are funded through this budget. It is anticipated that a new superintendent of schools will assume his duties on April 14, 2014. Working with the Board of Education, the new superintendent will help lead the district in the development of a new strategic plan. It has been five years since the last plan was initiated and it is very appropriate that this be revisited. One important component of this study will be to determine what space will not be needed for the foreseeable future. Then important decisions can be reached about whether this space is leased to generate revenue, used for other Town needs or sold. The budget contains \$25,000 for the study but a decision was made last week by the Board of Education to begin the work this May and pay for it from this year's operating budget.

A population forecast study will be undertaken this May and continue through October of 2014. It will provide data to help determine future space needs of the school system. Cost for this will come mainly from the current year's operating budget.

Within the curriculum and instruction section of the budget facilitated by Dr. Gejda, the following major planning and program development initiatives are provided for: professional development for staff in Readers Writers Workshop for grades kindergarten through 8; completion of math resource adoption in grades 5 and 6; district-wide program to monitor student progress in math and Language Arts; professional development for staff to ensure positive student social, emotional and behavioral development; and a continuation of curriculum and assessment revisions.

A vital aspect of planning is to be keenly aware of when you are approaching the point of diluting the effectiveness of your planning by providing for too many initiatives. The appendix of this budget contains a plan that was developed this past December which specifies initiatives which the school system is already committed to implement. Approximately one-third of these are driven by changes in State regulations and the other two-thirds are reflective of decisions made on the local level about how to support and improve the school system. Consultant Jonathan Costa, who facilitated the study, stated in December that the number of responsibilities is very large and will test the district's ability to respond to so many initiatives.

It is very important that the tragedy that befell our community in December 2012 not be used as a reason to lessen our vigorous pursuit of successful learning for our students. That said it would also be unwise to not understand that the recovery process embarked upon for our staff and our students, does have important ramifications. Simply put, there are unique needs and realities which our staff faces on a daily basis. Thank you for reading this overview and I'm confident that the future is a welcoming one. The collective strength and wisdom of us all will sustain our journey.

BOARD OF EDUCATION BUDGET GOALS FOR 2014-15

The Newtown Board of Education has identified the following goals that are supported by the BOE 2014-15 budget:

- ❖ Meet student and staff needs resulting from the events of December 14, 2012
As a result of the Sandy Hook tragedy, the mental health, safety and academic needs of district staff and students are of great importance and are reflected in this budget.
- ❖ Support the Newtown High School preparation for 2015-16 NEASC accreditation
The preparation process for the NEASC committee visit includes the completion of a lengthy self-study report and collection of artifacts that substantiate the high school's efforts in meeting accreditation standards.
- ❖ Provide an educational infrastructure to support the
 - (a) maintenance of existing and expanding technology requirements (including Bring Your Own Device)
 - (b) mandated implementation and assessment of new CT standards (Common Core State Standards)
 - (c) implementation of recommended security measures
 - (d) mandated educator evaluation plans
- ❖ Implement all activities listed in the Newtown Public Schools Coherence Plan
Highlights of the Coherence Plan include oversight, guidance and management of the new Sandy Hook School construction process; the implementation of the School Emergency Response to Violence (SERV) grant; and development of a coherent, focused, constancy of organizational purpose.
- ❖ Plan for future needs of the Newtown Public School system
Through strategic planning and an updated enrollment projection study, data will be gathered for informed decisions concerning efficient use of facilities, technology and security needs.
- ❖ Investigate the possible collaboration with municipal government to look for ways to provide better efficiencies and more transparent operations in administrative overhead areas

* BYOD = Bring Your Own Device - which depends upon adequate wireless bandwidth to be available within the school environment

Board of Education's Requested Budget for 2014-2015

A READER'S GUIDE TO THE BUDGET

This budget document is designed to serve as a policy document, a financial plan, an operations guide and a communication device. It is organized by function, by cost center (location), by program and by object. The general fund is the only fund that has a legally adopted Board of Education budget. The data presented has been expanded over prior years and includes two years of actual expenses, followed by the approved budgeted amount, then the current budget which includes any BOE transfers made through December financials. The columns then include the requested budget for next year, the dollar and percent of change.

The **Financial Organization of Accounts** section describes the other various funds that comprise the financial operations of the school district.

The **Fiscal Policy and Trends** section provides information on the major highlights and needs of the Board of Education budget. Trends and influences that affect the policy decisions regarding spending are discussed.

The **Function** and **Object** Summaries sections summarize financial information, providing an overview of the budget. Following these summaries are the location (cost center) schools budget details, organized by the program. Interspersed within the cost center details are expanded details, goals and objectives, account notes and individual account details. Total district and individual enrollments precede each section while location and program staffing concludes each section.

The most familiar way of viewing our budget has been the **Object Summary** which breaks the budget into what is/was purchased. The eight major codes are sub-divided to assist the reader's understanding of the categories.

The **Newtown Elementary Schools** combined represents our four elementary school instructional programs. The total elementary budget is followed by enrollment and classroom staffing. The narrative program descriptions are included in this summary and not repeated in the four individual cost centers.

The budget continues in this fashion for all other Functional Categories, through **Pupil Personnel Services**.

Curriculum and Technology include additional narrative information with very specific details about these needs.

General Support Services and **Employee Benefits** represent district wide budget request related to the overall operational requirement of the school district that are not specifically able to be assigned to one school or another.

Plant Operation & Maintenance includes costs associated with repairing, maintaining, and operating all locations. The requested budget is followed by the district's five year plan for Building and site Maintenance projects which is then followed by the approved Capital Improvement Plan (CIP included with other Town projects.)

Transportation includes daily rates, number of vehicles, out of district locations, fuel and other related needs.

Continuing Education concludes the cost center detail of the budget.

A Program Summary completes the request portion of the document followed by a History of Budgets, Expenditures & Wealth. Grants and contractual wage scales are all additional items of information which then conclude the formal document.

Board of Education's Requested Budget for 2014-2015

Board of Education's Requested Budget for 2014-2015

DISTRICT STUDENT ENROLLMENT

Enrollment – In August 2010 the Board of Education received a ten-year enrollment projections report for the Newtown Public Schools for years 2010 through 2019. This study was conducted by H.C. Planning Consultants, Inc. Dr. Chung.

The projections included K-12 students who attend Newtown Public Schools as of October 1st for each school year.

The complete report can be found at: <http://www.newtown.k12.ct.us/LinkClick.aspx?fileticket=sfQ9dH39ztM%3d&tabid=3294&mid=8370>

The Dr. Chung report is provided for informational purposes only. This budget was prepared based on an internal cohort survival method for the last five years of the Districts' October 1st actual enrollment. The reason is that the Chung report is old and it appears that the internal average for the last five years predicts 116 less students than using his data. A new enrollment study will be commissioned next year, 2014-15. An appropriation request of \$17,500 is included for this purpose. A schedule comparing the Chung 2014-15 projection to our internal CO (Central Office) projection is included following the Chung schedules. Pre K and STARR program children have been added for our display in this document.

**Board of Education's Requested Budget for 2014-2015
DISTRICT STUDENT ENROLLMENT**

District enrollment detail on following page

A necessary first step in the budget process each year is to project the student enrollment for the district as well as each school for the coming year. The district's projections used for this budget were based on these projections and past history. These yearly projections have been generally on target and have contributed to sound judgments regarding staffing and other budget needs for each coming year.

Grade 9 - 12 enrollment for 2011-12 through 2014-15 include 4 STARR program students actually located at Reed Intermediate School.

**Board of Education's Requested Budget for 2014-2015
DISTRICT STUDENT ENROLLMENT**

FISCAL POLICY AND TRENDS

MAJOR DRIVERS OF THE BUDGET

- **Salaries**

- Salaries comprise 63.3% of the total budget. Salaries and benefits combined equal 78.6% of the total budget.
- Salary increases range from 0% to 2% plus step movement for teachers after 15% of the school year.
- The teachers' contracted salary increases for next year equal \$969,150
- Other union contracts will require an adjustment amounting to \$109,252
- The total net increase in salaries after staff reduction is \$8,276. This increase is the lowest in history.

- **Employee Benefits**

- The total cost increases here are \$214,222 or 0.30% increase to the total budget. The BOE is in self-insured medical plans with the Town and the recommended contribution increase to maintain a stable fund balance is 3.2% or approximately \$245,858. All employee premium share contribution will increase in accordance with their contract. It is estimated that the Town and BOE have saved 8% overall due to self insurance.

- **Other Purchased Services**

- This increase is \$242,410 or a .34% increase to the total budget. The three larger areas of increase are:
 - Contracted Services – increased by \$64,505. Donations received lowered our current expenditures by \$61,000
 - Transportation Services – \$155,611 is required for transportation. Of this, \$44,000 is for the basic contract.
 - Out of District Tuition – increased by \$26,532.

- **Property & Equipment**

- The increased funding included here is \$3,594, above the \$515,748 current budget and represents less than 0.01% increase to the total budget.
- This includes a \$53,341 increase for technology equipment.

Board of Education's Requested Budget for 2014-2015

FISCAL POLICY & TRENDS

SALARIES

All salary increases continued into next year without staff reductions would have cost approximately \$1,250,000. With adjustments to the current and proposed years, the total increased cost for all remaining staff will be \$8,276.

- Annual salary increases. The following are the increases to be received by the unions. Non-union personnel increases have not yet been determined.
 - o Teachers: step movement after 15% of the work year, and a 2% increase for top step rates.
 - o Administrators: 1.5%
 - o Secretaries: 2.0%
 - o Educational Assistants: 2.0%
 - o Nurses: Currently in negotiation
 - o Custodians: 2.0%

Board of Education's Requested Budget for 2014-2015

FISCAL POLICY & TRENDS

EMPLOYEE BENEFITS

Employee benefits are expected to increase a modest 2.01% or \$214,222. The self funding agreements we have with the Town is currently projecting a need of 4% while medical trend is around 8%. Most other benefits are driven by salaries and are legally or contractually required. The dental requirement however, will decline.

PURCHASED PROFESSIONAL SERVICES

Purchased Professional Services has decreased by 5.85% or \$53,745.

PURCHASED PROPERTY SERVICES

Purchased property services has decreased by 10.52% or \$251,871. Building & grounds maintenance projects are required to make up for the projects deferred this year along with the normal requirements for next year. The facilities are aging and the list of needed building and site projects which are predictable require funding.

Detail on building and grounds maintenance projects can be found in the details within the Building and Grounds section of the budget.

OTHER PURCHASED SERVICES

Other purchased services have increased by 3.49% or \$242,410.

Contracted services increased by \$64,505. Donations received last year reduced our expenditure requirements by \$50,000 for Power School and Inform software maintenance along with \$11,000 for Rubicon atlas. \$24,000 is required for NWEA and the Teacher evaluation plan.

\$155,611 is required for transportation; \$44,003 for the basic contract increase, \$22,800 for an added late bus service to the MS & HS, \$19,256 for in district special ed. and \$62,953 for out of district special ed. transports. \$6,600 for the Magnet transportation which includes a loss of \$7,800 in grant money.

\$12,576 for anticipated increase in property and liability insurance, about 4%, and \$26,532 for increases in out of district tuition.

Board of Education's Requested Budget for 2014-2015

FISCAL POLICY & TRENDS

SUPPLIES

Supplies have decreased by 1.15% or \$52,222. Basic supply allocations for all schools are down by approximately \$79,000, the inflation factor has been held at 0% for five years now. Plant supplies have been reduced slightly. Electricity supply and natural gas prices have held constant and oil purchases will go down due to greater reliance on natural gas. The use of electricity has been lowered due to the implementation of energy efficient programs and equipment.

PROPERTY - EQUIPMENT

Property – Equipment increased by 0.70% or \$3,594 primarily due to needs in technology.

OTHER OBJECTS

Other objects remain essentially flat with a modest increase.

Board of Education's Requested Budget for 2014-2015

REVENUES

The overwhelming majority of revenue sources for the Newtown Public Schools budget come from local taxation, which account for 93.4% of our budget. Of the remaining 6.6%, 6.4% of revenue comes from state aid through the equalized cost sharing (ECS), transportation and non-public health grants formula. The FY 2013-14 does not anticipate a change in this revenue source when compared to FY 2012-13. For FY's 2009-10, 2010-11, and 2011-12, Newtown received Federal ARRA Stabilization Grants in the amount of \$614,836 per year. For FY 2011-12 we received further assistance of \$251,988 in the form of an Education Jobs fund to assist in continuing employment. The district does not anticipate receiving any of these grants this or next year. In addition to the formula grants noted above, we expect to receive approximately \$688K in state and federal aid in the form of special revenue grants.

The ECS grant is paid directly to the Town's general fund and does not affect the education budget directly. The Board of Education must request 100% of the amount needed to operate the school system for each succeeding year, with the exception of excess cost for high cost special education students, gate receipts for athletic events, participation fees for interscholastic sports, parking fees, and fees for the child development program. Accordingly, our budget request is reduced by the projected revenues from these sources.

The ECS grant formula was introduced in 1989-90, replacing the old GTB grant system. During the 1994-95 legislative session, the Legislature modified the ECS grant formula. Public Act 95-226 consolidated the special education categorical grant into the ECS grant. The act provides that the ECS formula shall be based upon local property taxes (per capita and per student), per capita income, median household income, AFDS populations and mastery test scores.

During the 1990s, the State of Connecticut consistently reduced the amount of State assistance to Newtown because of the town's higher wealth indicators in relation to other communities. State assistance declined by more than one million dollars during this period. However, four years ago the State of Connecticut modified the grant formula by reducing the cap for wealthier communities. As a result, Newtown's ECS grant increased by approximately \$300k.

Newtown also receives funding from donations. In the current fiscal year, the Newtown Public Schools have benefited from gifts from parent-teacher associations, booster clubs, civic organizations, private citizens, private corporations, and anonymous donors. Since the awarding of such funding is not guaranteed, the district's operating budgets are not built upon these funding sources and are not accounted for in the annual general fund operating budget. In many cases the donations are targeted or restricted to a specific school, program or purpose. A separate report is kept of all monies which flow to the Newtown Public Schools and are reported annually in Schedule 8 in the annual ED-001 Report.

DOJ & SERV

Schools Emergency Response to Violence and the Department of Justice grants are revenues received by the Town and school district to assist with the significant additional costs resulting from the 12/14 tragedy.

Board of Education's Requested Budget for 2014-2015

FINANCIAL ORGANIZATION OF ACCOUNTS

The financial operations of the Board of Education are organized into funds, each of which is accounted for as a separate accounting entity. The funds used by the Board of Education are outlined below, by fund type. The only fund that has a legally adopted budget is the general fund. The department responsible for the fund is in parentheses (after the fund name).

FUND TYPE - GOVERNMENTAL FUNDS

Governmental funds are those through which most governmental functions typically are financed. There are four types of governmental funds: the General Fund, Special Revenue Funds, Capital Project Funds and Permanent Funds.

General Fund – the primary operating fund of the Board of Education. This fund is used to account for all activities of the Board of Education, except those required to be accounted for in another fund. The General Fund accounts for the normal recurring services and activities of the Board of Education. These services and activities are funded principally by property taxes, user fees and grants from other governmental units.

Special Revenue Funds – Accounts for revenues derived from specific sources that are legally restricted to finance specific activities. The Board's special revenue funds are as follows:

Education Grants – to account for funds received from the State and Federal governments for education activities. Private grants are also received. Some major grants received are:

- Title I – provides additional academic support and learning opportunities to help low-achieving children master challenging curricula and meet state standards in core academic subjects. For example, funds support reading teachers and staff development.
- Title II, Part A (improving teacher quality) – activities include but are not limited to (1) recruiting and retaining highly qualified teachers and principals; (2) increasing the number of highly qualified teachers in classrooms; and (3) reforming teacher and principal certification programs.
- IDEA, Part B, Section 611 – provides for education of children with disabilities. Permitted expenditures include the salaries of special education teachers and costs associated with related services personnel, such as speech therapists and psychologists.
- IDEA, Part B, Section 619 – provides for education of children with disabilities, ages 3 through 5. Permitted expenditures include the salaries of special education teachers and costs associated with related services, including, but not limited to, speech-language pathology services, physical and occupational therapy, psychological services, parent counseling and training, and social work services in schools.
- SERV grant - This program provides financial support to assist in the recovery and restoration of the learning environment caused by a traumatic event that has produced emotional and financial hardship.
- DOJ grant - federal grant that provides support for building security & emergency readiness including building hardening.

Adult Education (Continuing Education) – to account for tuition fees received from individuals attending night classes at the high school. Tuition fees offset the cost of teaching and instructional materials.

School Custodial (Business Services) – to account for fees received for the use of school facilities by outside organizations. The proceeds may be used to pay for custodial service, security, audio visual services, utilities, certain incremental building maintenance costs and phone systems.

School Lunch Program (Business Services) – to account for the operation of the public school lunch program. Funding is provided from the sale of food, Federal and State grants and USDA donated commodities.

Board of Education's Requested Budget for 2014-2015

FINANCIAL ORGANIZATION OF ACCOUNTS

Capital Project Fund - account for all financial resources used for the acquisition or construction of major capital projects.

Capital Projects (various) – to account for bond proceeds and grants and other resources used for the acquisition or construction of major capital projects.

Capital Non-Recurring Fund (various) - to account for funds transferred from the general fund for future capital purchases and improvements (“pay as you go” as opposed to bonding).

Debt Service Fund- to account for the accumulation of resources for, and the payment of long-term debt principal, interest and related costs or other long- term liabilities.

Permanent Funds – used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the reporting government's programs.

Hawley School Trust (Finance) – to account for the investment of funds left in trust by Mary E. Hawley for the care and maintenance of Hawley School.

FUND TYPE - PROPRIETARY FUNDS

Proprietary funds are used to account for activities that are similar to those found in the private sector. These funds are accounted for on the flow of economic resources measurement focus and use the accrual basis of accounting. The Board of Education has one type of proprietary fund:

INTERNAL SERVICE FUNDS

Internal Service funds account for the financing of goods or services provided by one department to other departments or agencies of the Town on a cost-reimbursement basis.

Medical Self Insurance Fund (Finance) – to account for the costs of employee medical claims, stop loss insurance and third party administration. Resources to cover these costs come from the departments and agencies whose employees have these benefits. These departments and agencies are charged an “allocation rate” (similar to a premium rate charged by insurance companies).

BOE Dental Self Insurance Fund (Business Services) – same as above except it only pertains to BOE employee dental costs.

FUND TYPE - FIDUCIARY FUNDS

Fiduciary funds are used to account for assets held by the Town in a trustee capacity for individuals, private organizations or other governments. The Town has two types of fiduciary funds:

TRUST FUNDS

Other Post Employment Benefits Trust Fund (OPEB Board) – this trust fund accounts for assets held for teacher (and police) retiree medical benefits.

Board of Education's Requested Budget for 2014-2015

FINANCIAL ORGANIZATION OF ACCOUNTS

Pension Trust Fund (Pension Board) – the Town has three pension plans covering substantially all of its full time employees, except teachers who are covered by the State Teachers' Retirement Fund. The General Town and Board of Education Plan is a contributory defined benefit plan. The Police Plan is a contributory defined benefit plan. The Elected Officials Plan is a contributory defined contribution plan.

AGENCY FUNDS

Agency funds are used to report resources held by the reporting government in a purely custodial capacity.

Board of Education Flex Plan (Education) – to account for employee medical savings account.

Student Activities (Education) – to account for expenditures for educational extracurricular activities at the various schools. Financing is provided by individual fundraising projects.

BASIS OF ACCOUNTING

All General and Special Revenue Funds shall be accounted for on the modified accrual basis, under which revenues shall be recognized when actually received, or accrued when the Director of Business determines them to be both measurable and available, and commitments of money shall be recorded as soon as they result in contingent liabilities to be met from available appropriations. This shall not apply to interest earnings, which may be recognized on a full-accrual basis, so as not to preclude the Board from maximizing investment earnings through utilization of long-term investments transcending one (1) or more fiscal years. Enterprise and Internal Services Funds utilize a full-accrual system of accounting. The Board shall utilize a full-encumbrance system for all funds in all financial transactions of the board. Salaries and wages of Board employees chargeable against valid personal services appropriations need not be encumbered, except at the close of the fiscal year. At the close of the fiscal year, all salary commitments and related employee benefits, such as social security, group insurance, retirement contributions and other obligations, as evidenced by a valid purchase order or contract accruing to the current accounting period, shall be itemized in a reserve for encumbrances; said itemized encumbrances, at the discretion of the Director of Business, may be met from the aggregate total of the reserve for encumbrances.

The budgetary basis follows the modified accrual basis of accounting except:

- a. Encumbrances are recognized as a valid and proper charge against a budget appropriation in the year in which the purchase order is issued and, accordingly, encumbrances outstanding at year-end are reflected in budgetary reports as expenditures in the current year but are shown as reservations of fund balance on a GAAP basis.
- b. The Board accounts for "on-behalf" contributions made by the State of Connecticut to the Connecticut State Teachers' Retirement System as revenue in accordance with GASB Statement No. 24, Accounting and Financial Reporting for Certain Grants and Other Financial Assistance. As such, General Fund revenue and expenses on a GAAP basis reflect the recognition of "on behalf contributions by the State."

Board of Education's Requested Budget for 2014-2015

FINANCIAL ORGANIZATION OF ACCOUNTS

BUDGETARY & ACCOUNTING CONTROLS

The administration of the school system maintains budgetary and accounting controls designed to ensure the reporting of reliable financial information. The system is designed to provide reasonable assurance that assets are safeguarded and transactions recorded and executed with the administration's authorization. Internal control systems are such that the administration believes that errors or irregularities that could be material are prevented or would be detected in a timely manner. A Manual is provided to every administrator and office staff employee with fiscal responsibilities to guide him/her in the development of the budget.

The Education budget is transferred to a Chart of Accounts by program, which is prepared by using the NCES Financial Accounting Handbook (2012 Edition). Financial information is available on-line to administrators/program managers, showing transactions and balances of the accounts within each program for which they are responsible. Each month, Education expenditures, encumbrances, and projections are made to the Board of Education and forwarded to the Board of Finance.

Several times during the year, the Board of Education approves budget transfers between line items within the approved total budget at regularly scheduled meetings. These transfers cover changes in funding requirements for reasons of personnel turnover, increased or decreased enrollments, staffing changes, and/or revised cost information for various accounts, such as health or casualty insurance premiums, utilities, tuition, emergency repair and transportation needs.

Following the conclusion of each fiscal year, June 30th, a financial report is prepared by an independent certified public accounting firm, which is retained by the Town of Newtown. This examination is performed in accordance with generally accepted auditing standards, and includes a review of the school system's budgetary and accounting controls.

REVENUES

Under Connecticut General Statutes, the Town of Newtown collects all revenues, which support the Board of Education budget, either through local property taxes, inter-governmental transfers, and/or from miscellaneous revenue. Any reference to anticipated or actual revenues within the Education budget document is for information purposes only.

STUDENT ACTIVITIES FUND

The Student Activities Fund supports extra-curricular activities in the Newtown schools not funded directly through the Board of Education operating budget. For example, activities such as Yearbook, class activities, Drama Club, Student Council, athletic events at the secondary schools, and field trips at the elementary level are possible because funds are raised by the students, under adult supervision, in accordance with Connecticut General Statutes and School Board policies and Regulations. In addition, some scholarship funds are maintained through the Student Activities Fund. The Student Activities Fund is audited annually as a part of the general Town of Newtown/Board of Education end-of-year audit.

FUNCTION SUMMARY

The "Function" describes the activity for which a service or material object is acquired. The functions of a school district are classified into five broad areas; Instruction, Support services, Operation of Non-Instructional Services and Facilities Construction . They can be further classified into sub functions.

Board of Education's Requested Budget for 2014-2015

OBJECT CODE DESCRIPTION

111 CERTIFIED SALARIES: Salaries for all teaching and administrative employees occupying positions requiring certification by the State Department of Education, including related costs of substitutes, tutors, extra credits, coaches, retirement incentives, and summer school. This account also includes curriculum work, advisors, activity stipends, and non-union administrators.

112 NON-CERTIFIED SALARIES: Salaries for all employees occupying positions not requiring State certification. These include educational assistants, nurses, secretaries, bookkeepers, security, custodians, maintenance personnel, technicians and computer staff, including related cost for substitutes and overtime. This account provides for normal negotiated increases for all these bargaining units.

200 FRINGE BENEFITS: Includes the cost of providing medical, dental, life, disability, pension, and employee assistance programs, plus the legally required expenses for social security, Medicare, worker's compensation, and unemployment compensation. The Board changed to a medical benefits program through an ASO (administrative service only) self-funded plan with Anthem of Connecticut in combination with the Town. This combined program benefits the Town and BOE overall. The administrator, teacher, secretary, educational assistants and custodian contracts provided for a PPO and HSA plan. The account also includes tuition reimbursement for teachers.

300 PROFESSIONAL SERVICES: Includes those purchased personnel services that are not part of the payroll, such as medical doctors, neurologists, psychologists, attorneys, auditors, consultants, software specialists, architects, engineers, testing services and laboratories.

322 PROFESSIONAL EDUCATION SERVICES: Services supporting administration of the instructional program. This line item includes payment of services for staff trainers and consultants, and workshops and conferences that are outside the district. Funds are targeted for literacy and numeracy training.

410 BUILDING CONTRACTED SERVICES: an allowance for services related to maintaining the buildings and their systems in a safe, secure and healthy manner. This allocation includes services related to maintaining building systems such as elevators, security and fire alarms, heating and cooling controls, septic tanks and oil burners, fire suppression system, emergency lights, extinguishers, water systems, communication systems, generators, and clock and bell systems.

411 UTILITY SERVICES: Includes expenditures for water and sewage.

430 REPAIR & MAINTENANCE – BUILDINGS & EQUIPMENT: Provides funds to keep buildings and equipment in acceptable operating condition. It also provides service contracts on instructional computer and miscellaneous equipment, along with the replacement of items that cannot be repaired.

441 RENTALS – BUILDING & EQUIPMENT: Includes expenditures for rental of copy machines, postage meters, storage containers, and the cost of space for BOE offices.

450 BUILDING & SITE MAINTENANCE PROJECTS: Also referred to as Building & Site Maintenance Improvements, represents funds required for repair or replacement of major building systems. These expenses are sometimes referred to as capital improvements because they are more costly and predictable than routine repairs. These projects are essential for the proper operation, maintenance, safety, longevity and well being of the schools' occupants and facilities. Nineteen specific projects were proposed and detailed within the plant operation budget.

Projects that exceed \$274,875 (.25% of the Towns' prior years budget) in cost are included annually in the BOE's Capital Improvement Plan (CIP) that is submitted to the Board of Finance and Legislative Council for separate consideration. Because of the significant costs for these items and CIP items, it became impossible for the Board to complete all the needed projects in past years and they were deferred to this year.

Board of Education's Requested Budget for 2014-2015

OBJECT CODE DESCRIPTION

500 CONTRACTED SERVICES: Includes expenses for student club activities, participation fees, sports officials, graduation expenses, software support, adult education programs, curriculum fees, transportation advisory fees and Newtown Youth Services.

510 TRANSPORTATION SERVICES: Represents the expenses required for the operation of the school system's in-town transportation program including St. Rose, Housatonic Valley, and Fraser Woods schools and students transported in and out of town for special, vocational and magnet programs.

520 INSURANCE – PROPERTY & LIABILITY: Includes the costs of liability, property, boiler, auto, theft, errors and omissions, transportation & interscholastic sports insurance.

530 COMMUNICATIONS – TELEPHONE, POSTAGE, CABLE & ADVERTISING: Includes the costs for all telephone services, postage and mailing expenses, advertising and Charter Cable Internet services. This amount is net of the e-rate funds the district receives as refunds on its phone and cable bills.

550 PRINTING SERVICES: Includes costs for any contracted printing services. These funds are spent for printing report cards, progress reports, handbooks, newsletter, student newspapers, graduation programs, student passes, etc.

560 TUITION – OUT OF DISTRICT: Provides for those children whose educational needs can only be met by placement in schools outside of Newtown as determined by Planning and Placement Team (PPT) decision, courts or the Department of Children and Families (DCF). Typical placements can run from \$42,375 to over \$200,000 with the average being \$84,510 per student. Also provides children the opportunity to attend vocational and magnet school programs.

580 STUDENT TRAVEL & STAFF MILEAGE: Expenditures for student transportation other than to and from school and other expenses associated with staff travel, including itinerant mileage, and staff conferencing. This includes items such as curriculum and staff development, math team competition, music competition, sports travel, cooperative work experience, etc.

611 SUPPLIES: Allowances for all instructional, health, library, paper and office supplies that are consumed each year. Also includes small equipment items costing less than \$500.

613 PLANT SUPPLIES: Allowances for those cleaning, minor repair, and grounds maintenance supplies used on a daily basis to maintain clean and safe schools. This includes such items as paper towels, toilet tissue, wax, cleaning products, light bulbs, hardware items, paint, glass, belts, lubricants, filters and small equipment like vacuum cleaners, mowers, weed-whackers, and extractors.

620 ENERGY: Includes the cost of natural gas, propane, heating oil and electricity for the four elementary schools, the intermediate school, the middle school, the high school, the maintenance garage, and the warehouse facility. It also includes gasoline and diesel fuel for maintenance vehicles, power equipment, and the school buses.

641 TEXT BOOKS: In addition to normal replacement books and additional copies for increased enrollment, includes books adopted as part of the curriculum revision process or as part of a district initiative.

734 PROPERTY: Provides for the replacement of existing equipment, including technology, along with new program needs. This amount includes the district's sewer assessment.

810 MEMBERSHIPS: Expenditures for institutional memberships in professional and educational organizations.

NEWTOWN ELEMENTARY SCHOOLS - COMBINED

GOALS AND PROGRAM DESCRIPTIONS – ELEMENTARY SCHOOLS

GOALS FOR 2014-15

- Incorporate the new state standards to ensure students have access to a high quality curriculum that is appropriately rigorous, so content knowledge and deeper understanding will be reflected in student achievement.
- Expand Readers' /Writers' model Workshop into our classrooms to increase readers' stamina, independence, and comprehension.
- Ensure a physically and emotionally safe school environment for students, staff, and parents.
- Implement the Professional Growth Plan to support teacher improvement and professional development.

Expanding the scope of Lesson Study K-4 will support the achievement of these goals. In addition, SMART goals have been created by teachers that focus on measurable student achievement. In order to provide each teacher with the necessary support to achieve his/her goal, professional development will be geared toward the success of each of these plans.

In accordance with the Newtown Schools Professional Growth Plan and state legislation, there will be a shift from attendance at large, out-of-district workshops to small group or individual professional development opportunities provided by school or district staff. With this in mind, and recognizing the need to support specific components of district programs in each building, we request that funds be reallocated from staff training-classroom to certified substitute-class and/or instructional supplies accounts.

BUDGET HIGHLIGHTS

As students further develop their passion for reading and writing, we must expand classroom libraries to provide students with access to a wide variety of genres and reading levels to accommodate their individual needs. We must also increase the number of non-fiction materials available to students. Teachers also require professional resources and professional development to help them differentiate instruction and to implement Reading and Writing Workshops successfully.

CLASSROOM

Currently the majority of certified staff work as classroom teachers providing daily instruction and assessment in all major content areas to our Pre K-4 students. Our curriculums are being revised to incorporate new standards, instructional strategies and assessments. Teachers have implemented the Readers and Writers Workshop model and the comprehensive Stepping Stones math program. The integration of technology into teaching and learning has provided students with regular opportunities to increase inquiry and digital literacy skills. Responsive Classroom and Second Step have been incorporated into classroom lessons and practices. Continued support of these programs ensure that students' needs are met in social, behavioral and emotional areas.

This program category includes all the staff and materials necessary for the individual classroom in each school, including copiers and services required to support the staff in day-to-day needs.

Board of Education's Requested Budget for 2014-2015

GOALS AND PROGRAM DESCRIPTIONS – ELEMENTARY SCHOOLS

ART

The intent of the art education program in Newtown is to develop visual thinkers and to encourage creative problem solvers. Structured and sequential learning situations in the visual arts are an essential part of the intellectual, social, and emotional growth of every child. The Art curriculum is designed to develop the unique mental capabilities that foster flexible, divergent, original, fluent, and imaginative thinking. By making art, students ponder multiple solutions based on information coupled with individual judgment.

In a complex visual world where perception and reality are often in conflict, art offers the experiences necessary to observe and to extract the essence of the physical world and to translate its components into works of art. Art is knowledge made visible. Students investigate the visual riches of our world and experience insights and pleasure. Art creates the opportunity for the student to be consistently involved with his/her own learning from the inception of an idea to its concrete realization.

The historical and cultural significance of art in education provides the opportunity for the student to understand and appreciate the role of the artist as a visual historian and the creator of new and original modes of perception. Art creates meaning for history and culture. The goal of art education in Newtown is to provide planned, ongoing, and systematic instruction in the visual arts through the following standards:

- Students will be able to use media, techniques and processes to understand and express visual elements and principles
- Students will be able to use subject matter, symbols, and ideas to make connections between art and other disciplines.
- Students will be able to understand that art is the essential core which reflects, records, and shapes the history and development of culture
- Students will be able to respond to works of art through analysis and interpretation
- Students will continuously examine, assess, and improve their work

EARLY INTERVENTION

Research shows that early intervention is critical to ensuring future academic success for students. Each of the Newtown elementary schools has a comprehensive Scientifically Research Based Intervention (SRBI) program. The program includes the early identification of at-risk read students in the areas of literacy and mathematics. Students' strengths and weakness are addressed through the use of research based practices. Teachers provide tiered instruction through both push in and pull out services. Instruction targets pre-readings skills, phonological awareness, concepts of print, word work, fluency and reading comprehension.

Board of Education's Requested Budget for 2014-2015

GOALS AND PROGRAM DESCRIPTIONS – ELEMENTARY SCHOOLS

MATHEMATICS

The most critical initiative at this time is the continued implementation of the Common Core State Standards in Mathematics in Grades K-4. The Common Core State Standards math shifts include the following:

- Focus on Critical Concepts
- Coherence Within and Among Grades
- Procedural Fluency
- Deep Conceptual Understanding
- Application to Real World Situations
- Balanced Emphasis between Authentic Practice and Extended Application of Mathematical Concepts

Teachers are working collaboratively in Professional Learning Communities and with the Math/Science Specialists to transition to the new standards, which are more focused and require students to develop a deeper understanding of concepts. Teachers are developing lessons that provide the depth and quality of instruction required to reach these new standards. For students who struggle in mathematics, teachers consult with the Math/Science Specialist and seek support through the SRBI process. We believe that early intervention is the most effective practice for helping at-risk students.

BUDGET HIGHLIGHTS

As teachers expand their repertoire to instruct at a deeper conceptual level, professional development time will be needed. Teachers must not only share their practice within and among their grade levels, but must also explore more effective resources for continuous improvement of math instruction.

MUSIC

“The study of music contributes in important ways to the quality of every student’s life. Every musical work is a product of its time and place, although some works transcend their original settings and continue to appeal to humans through their timeless and universal attraction. Through singing, playing instruments, composing [and active listening], students can express themselves creatively, while a knowledge of notation and performance traditions enables them to learn new music independently throughout their lives. Skills in analysis, evaluation and synthesis are important because they enable students to recognize and pursue excellence in their music experiences and to understand and enrich their environment. Because music is an integral part of human history, the ability to listen with understanding is essential if students are to gain a broad cultural and historical perspective. The adult life of every student is enriched by the skills, knowledge, and habits acquired in the study of music.” (*National Association for Music Education National Standards, adopted by NPS*)

PHYSICAL EDUCATION

The Physical Education Program is committed to energize and educate the students of the Newtown School District to be physically fit, healthy and ready to learn. This is achieved by using the following belief statements:

- Physical activity will contribute to improved academic performance
- A positive relationship exists between physical activity, health and wellness
- Participation in a lifetime of physical activities will increase wellness
- Responsible personal and social behaviors that respect self and others are expected
- The foundation of physical education is based on the acquisition of knowledge and the application of skills
- Delivery of instruction requires highly qualified Physical Education staff

Board of Education's Requested Budget for 2014-2015

GOALS AND PROGRAM DESCRIPTIONS – ELEMENTARY SCHOOLS

LANGUAGE ARTS/READING

As Newtown elementary schools move toward the Reading Workshop model, our most significant goal is to support all students in becoming lifelong learners. The workshop philosophy supports the academic shifts represented in the Common Core State Standards:

- Increase Reading of Informational Text
- More Complex Text
- Academic Vocabulary
- Text-based Answers
- Increase Writing from Multiple Sources
- Literacy Instruction in all Content Areas

The Writing Workshop model has been effectively implemented in Newtown classrooms for many years. The Reading Workshop provides the necessary compliment to provide integrated literacy instruction in our classrooms.

LIBRARY MEDIA

Newtown Public Schools media center program enable students to become independent, responsible, efficient, and competent users of information. Information literate students select, interpret, organize, analyze, evaluate, and synthesize information from a variety of print and non-print resources. Students use these research skills across all curricula to communicate ideas, solve information problems, and pursue personal interests. The goal of the library media experience is to create life-long learners who can think critically, ethically, and make informed decisions as well as develop and strengthen a love of reading by providing access to up-to-date, high quality, varied literature.

ADMINISTRATION

Elementary administrative teams lead by example and engage students, teachers, and parents in the learning process. Their responsibilities include the supervision of all programs, personnel, and facilities within the school. The principal is a member of the district senior leadership team. Major duties and responsibilities include curriculum, personnel, communications, school safety, professional growth, evaluation and budget.

EDUCATIONAL TECHNOLOGY

Educational technology is a vital tool to advance the Newtown mission to prepare students for lifelong learning and workforce readiness. We are committed to infusing technology into our schools by accomplishing the following goals:

- The district will develop a learning environment that integrates curriculum and technology
- All students will use technology as a tool to learn and apply the knowledge and skills that are defined in district curricula
- Members of the school community will have equitable access to technology within the school district
- The district will provide comprehensive and systematic training for staff and administration
- The district will collaborate and network to create real-world connectedness

The district will provide the technology necessary for staff to access, communicate, and manage school-related data.

HAWLEY SCHOOL

29 Church Hill Rd., Newtown

<http://newtown.hawley.schooldesk.net>

In the early twentieth century, the old academy building served as a high school for Newtown. In 1920 the old academy building, mysteriously caught fire and was burned to uselessness.

In the aftermath, Arthur T. Nettleton, president of Newtown Savings Bank and financial advisor to Mary E. Hawley, convinced her to donate a new High School building to the town. This became the first of several benefactions to the town from that exceedingly generous woman. The school, which was to be named for her parents, was completed in 1921 and was considered to be one of the most advanced school buildings in the state at that time. In addition to having central heating, it was completely fireproof and contained a state of the art chemistry lab and full auditorium for community meetings.

The building continued to be used as a High School until 1953 when a new High School was constructed on Queen Street. The Hawley School subsequently became a K-8th grade elementary school and after the conversion of the Queen Street building into a Middle School in 1974, it became a K-5th grade elementary school.

The building is situated on a level 1.2 acre plot that adjoins Taylor Field which it uses for playground facilities. Taylor Field was the former Newtown Fairgrounds and it was donated to the town by Cornelius B. Taylor in the 1920's. The remains of the old fair race track can still be seen in the woods to the north of this field.

It is a long standing tradition that Mary E. Hawley's generosity is commemorated each year around Memorial Day when 4th graders are selected at random and being joined by the Hawley School principal, they place potted flowers on Miss Hawley's grave in the village cemetery. After this brief ceremony, they visit the Town Hall and the Soldier's and Sailor's Monument, two of Miss Hawley's other gifts to the town.

Hawley's school colors are blue and white and the mascot is the husky.

SANDY HOOK SCHOOL AT CHALK HILL IN MONROE

375 Fan Hill Rd., Monroe

<http://newtown.sandyhook.schools.net>

Monroe's first multi-storied school building rose up near the chalk mines in town 43 years ago. Chalk Hill Middle School welcomed approximately 800 sixth, seventh and eight graders into the new \$2,550,000 facility at 375 Fan Hill Road for the 1969-70 school year.

Chalk Hill was built in the back of the same property where Fawn Hollow Elementary School is. It was designed by architect, Fletcher-Thompson Inc. Town officials worked hard to get the best school at the lowest cost. The original estimate came in at \$2.6 million and the Board of Finance wanted the price tag to be no higher than \$2 million. Chalk Hill was ultimately built for \$2,550,000 with a \$1,150,000 reimbursement from the state.

Of eight new schools that opened in Connecticut for the 1969-70 school year, Monroe's had the lowest construction costs, according to Connecticut State Board of Education News Journal. Other schools ranged from \$2.7 million to \$5 million with comparable enrollments and facilities in the middle and junior high school category. "It was well designed with the children's safety in mind," Koneff recalled. "I always felt it was a safe school for students to be traveling along the hallways and in the stairwells."

During Chalk Hill's run it had seven principals in a school where many teachers' careers began, but a decline in student enrollment over the past few years eventually led to its closing as a school in 2010. Town officials mulled different options for the building, ranging from a community center to a wrecking ball.

However, in January of 2013, Chalk Hill's immediate future became clear. Monroe offered use of its building for the Sandy Hook students and staff through the 2015-16 school year.

Sandy Hook's colors are green and white and the mascot is the eagle.

MIDDLE GATE SCHOOL

7 Cold Spring Rd., Newtown

<http://newtown.middlegate.schools.net>

In the early 19th century, travelers from Bridgeport to New Milford would pass through three toll gates on what was known as the Bridgeport-Newtown Turnpike (presently Rt.25) The first toll gate was just north of Bridgeport city limits. The second, or "middle gate" was on Newtown's southern border and the third was on the Brookfield-Newtown line. Middle Gate school took its name from the original toll gate, which at the time, was the most prominent landmark in town.

The original "Middle Gate" school was established in 1783 and known as the Bears Hill school which stood across from the present Bears Hill Road, just south of the Botsford post office. In 1850, the school was renamed to Middle Gate school and in 1968, the Newtown Historical Society acquired the school moving it to its present location on Cold Spring Rd.

The present school was built in 1964. Before it was a year old, more classrooms were needed and the first two classroom portables went up in the summer of 1966 to accommodate the sixth grade. Eventually, there were a total of nine portables in use until the completion of the Districts' fourth elementary school, Head O'Meadow which was built in 1977. By the early nineties, more space was needed again and an additional 16,848 square feet were added bringing the total square footage to 57,100.

In January of 2003, the Reed Intermediate School opened its doors and all fifth and sixth grade students from the district moved to the new school which created much needed space for kindergarten through 4th grade.

The school spirit colors of Middle Gate are red and white and the mascot is the flying eagle.

HEAD O'MEADOW SCHOOL

94 Boggs Hill Rd., Newtown

<http://newtown.head.schooldesk.net>

Built in 1977, the Head O' Meadow School was initially designed around an open floor plan that was in vogue at the time. But later, partitions were put up, creating individual classrooms that educators now believe provide for a better learning environment. The only remnant of the open floor plan design is the library, which sits in the center of the school.

The district operates a public preschool program, which features a mix of typical and special needs children, in the building. Enrollment for the preschool was 20 in October 2013.

The school colors are red and blue and the mascot is the hawk.

Board of Education's Requested Budget for 2014-2015

REED INTERMEDIATE SCHOOL

3 Trades Lane, Newtown

<http://newtown.reed.schooldesk.net>

Reed is a school for fifth and sixth graders. It is divided into clusters of about 50 students, with each group taught by a team of two teachers. The principal supervises the fifth grade, while the assistant principal, supervises the sixth grade. The teaching model is intended to foster a level of consistency and clarity, in addition to promoting smaller learning communities.

"The school's core values are to be safe, responsible, respectful, productive and healthy. These values are to bring the community together and foster a sense of caring," educators said. The school publishes a core-value matrix that maps out the ways students should behave in the classroom, hallway, cafeteria, playground, bus, locker room and restroom.

The school is named after John Reed, who served as Newtown's superintendent of schools for 20 years before retiring.

The schools colors are red, white & blue and the mascot is tiger.

REED INTERMEDIATE

PREFACE

Reed Intermediate School serves almost 800 students who enter as children and exit as young adolescents. Our students are capable learners who will meet the rigorous standards set forth in the CCSS with appropriate instruction and support. Yet major changes in standardized testing are expected to further challenge our students in ways to which they are not accustomed. We anticipate that these changes will necessitate additional instructional support for many students. One such instructional shift that has begun in reading has been the implementation of Readers Workshop which will continue throughout the 2014-2015 school year. In addition to the many instructional changes facing our teachers is the implementation of the new Teacher Growth Plan. More than ever, teachers need additional collaborative time to analyze student performance data and make necessary shifts in instructional practice.

BUDGETARY GOALS

- Incorporate the Common Core Standards (CCSS) into planning, instruction, and assessment
- Support student learning and progress towards increasingly rigorous standards (CCSS) and high-stakes testing (SBAC)
- Continue progress towards full implementation of the Readers Workshop model in both fifth and sixth grade
- Support teachers' professional development through the implementation of Newtown Public Schools' Professional Growth Plan
- Increase opportunities for teachers to collaborate in results-oriented, content-based professional learning communities
- Provide a physically safe and emotionally secure school environment for students, teachers, support staff, and parents

Understanding the significant challenges facing each of the Newtown Public Schools, and the district as a whole, we are committed to maximizing our resources in a way that will allow us to keep our budget flat. Schedule changes and personnel reductions may result in the ability to consolidate in some areas so that we may grow in other areas.

REGULAR INSTRUCTION – REED INTERMEDIATE

ART

Art is a key conduit to the intellectual, emotional and social growth of every child. The art program develops visual thinkers and creative problem- solvers. The curriculum is designed to provide opportunities that foster flexible, divergent, original and imaginative thinking. It also helps students develop the meta-cognition beneficial to all areas of learning. Students receive instruction that strengthens their visual thinking capabilities and their understanding of the creative process, both of which are fundamental requirements for success in the 21st Century. Students in the 5th and 6th Grades study the Elements of Art and the Principles of Design. Students use different media and techniques to carry an idea from inception to realization.

COMPUTER EDUCATION

Students receive direct instruction in computer applications as one of their rotation classes. Covered skills include keyboarding, using productivity software applications for communicating ideas by word processing, creating and analyzing data in spreadsheets with graphs and functions, and creating multimedia presentations. Additionally, students are introduced to creativity tools that allow digital media creation, including image or video creation and editing, along with troubleshooting skills for basic hardware, software, and peripherals such as microphones, headphones, and digital cameras. This rotation is key in supporting the Newtown Board of Education approved Technology Curriculum, the State of Connecticut Technology Curriculum, and is a vital step in assessing the technology literacy of all students by Grade 8. Reed's computer rotation also provides out-of-rotation support via an on-line keyboarding tutor program (providing students with additional opportunity to develop and practice keyboarding proficiency) and use of NPS Apps.

HEALTH EDUCATION

Health and Project Adventure are integrated to provide a wellness program that promotes physical, intellectual, emotional, and social well-being. Areas include disease prevention, substance abuse prevention, mental and emotional health, safety, nutrition, neuromuscular development, and physical activities. Project Adventure is designed to foster trust, cooperation, support, appropriate risk, communication, problem-solving and teamwork while using activities designed to increase physical fitness. Health and Project Adventure are taught as part of the rotation classes. Students will:

- Comprehend concepts related to health promotion and disease prevention to enhance health
- Analyze the influence of family, peers, culture, media, technology, and other factors on health behaviors
- Access valid information and products and services to enhance health
- Use interpersonal communication skills
- Demonstrate the ability to use decision-making skills to enhance health
- Create goals to enhance personal health
- Practice health-enhancing behaviors and avoid or reduce health risks
- Advocate for personal, family, and community health

Project Adventure employs a unique adventure methodology consisting of activities and experiences designed to appropriately challenge individuals and groups. It is aligned to the National Physical Education Standards.

MATHEMATICS

Both the mathematics and science programs follow curriculum that is aligned with the Connecticut State Frameworks. The mathematics curriculum is also infused with content related to the CCSS. The science curriculum is in the process of being expanded and broadened by the STEM program. The mathematics/science specialist consults and coaches staff, collects and analyzes assessment data, coordinates Tier II and Tier III interventions as outlined by the SRBI/RTI process, diagnoses student needs and assists with curriculum development and implementation.

MUSIC

The music program provides multiple opportunities for all students to participate in the three artistic processes associated with music creating, performing and responding. The music curriculum is based on the national and state standards for music education. Lessons are designed to help students develop and strengthen their skills for successful instrumental and vocal performance, individually and in an ensemble. Musical study correlates directly to 21st Century and CCSS skills by encouraging critical thinking, problem-solving, collaboration and creativity. Students explore, develop and analyze strategies for learning and preparing new music for performance (as professionals would), thereby developing their meta-cognitive skills. All students participate in a music class as part of their program of study. Course choices include Band, Chorus and Orchestra. Each student attends ensemble rehearsals as well as one lesson per week. All students participate in the annual winter and spring concerts, but have additional performance opportunities with the annual Chamber Concert, Recital, String Jam, Newtown Night of Jazz, and regional festivals. All 6th Grade students participate in an additional music class through a six-week Global Studies rotation. Students explore music from other cultures, including China and Africa. A culminating project provides students the opportunity to create an original musical composition.

PHYSICAL EDUCATION

The physical education program promotes physical, intellectual, emotional, and social well-being. Students attend physical education twice per six day cycle. Students will:

- Demonstrate competency in motor skills and movement patterns needed to perform a variety of physical activities
- Demonstrate understanding of movement concepts, principles, strategies, and tactics as they apply to the learning and performance of physical activities
- Achieve and maintains a health-enhancing level of physical fitness
- Demonstrate responsible personal and social behavior that respects self and others
- Value physical activity for health, enjoyment, challenge, self-expression, and/or social interaction

LANGUAGE ARTS

As the Newtown School System moves towards a Readers Workshop model and creates concept-based units of study, the language arts goals will shift significantly to support individual student growth as delineated by the Common Core State Standards (CCSS). The language arts program includes reading, writing, and grammar/punctuation/usage. The language arts specialist guides curriculum development and implementation based on state guidelines and district initiatives. The specialist designs and provides professional development, consults and coaches staff, accesses, analyzes and monitors student progress, and provides remedial services for students who demonstrate deficits in reading and writing skills.

REGULAR INSTRUCTION – REED INTERMEDIATE

LIBRARY MEDIA

By providing models for instructional and research strategies to staff and students, the library media program fosters a community that pursues rigorous academic goals and personal responsibility. The library media program is designed to encourage students to become a community of readers and develop a strong foundation in information literacy as detailed in state and national standards with particular focus on:

- Developing research skills and techniques
- Honing the ability to access, extrapolate, and evaluate information embedded in a variety of print and electronic formats
- Becoming ethical, responsible users of technologies and social media

The library media specialist is uniquely qualified to help teachers embed critical information, technology and media literacy skills into their instruction.

The library media specialist will:

- Foster a love of reading by offering a wide selection of quality literature and providing readers' advisory services
- Work collaboratively with teachers to tie the delivery of the information literacy curriculum elements closely to classroom activities so that units across the school are rich with opportunities for students to develop critical thinking, information technology and media literacy skills
- Maintain an up-to-date collection that satisfies the diverse learning needs and interests of students while serving the instructional needs of the faculty and staff
- Provide students, faculty, and staff with 24/7 access to the online library catalog and curriculum resources through the RIS Media Center web site

Students access the media center primarily as a whole class or visit individually for literature selection and research.

NEWTOWN MIDDLE SCHOOL

11 Queen St., Newtown

<http://newtown.nms.schooldesk.net>

The Newtown High School was located in the Hawley School building from 1921 to 1953, when it was moved to a new building on Queen Street. From 1953 to 1974, the current Middle School located on Queen Street served as a high school until moving to its current location on Rt. 34 in Sandy Hook. The Queen Street building then became what it is today, Newtown Middle School.

NEWTOWN MIDDLE SCHOOL

The central focus of **all** professionals at Newtown Middle School continues to be student learning. Our staff is committed to provide all students with opportunities to meet their individual potential. Every staff member has created a personal goal related to improving our student's reading ability along with a goal to create a positive learning environment in which children feel safe. Our NMS 2014-2015 budget requests are reflective of our commitment to keeping class size at a level that will allow our staff to continue to provide our students with individualized attention.

THEORY OF ACTION

If the Newtown Middle School Professional Learning community implements their collaboratively designed goals of improving students' reading ability, subject area skills, increased parent communication and creating a positive school environment in which students feel safe, then student's achievement will increase.

ART

All students at the Middle School have art one period a week for the entire year, averaging a total of 34 classes per year. A variety of media, both 2- and 3-dimensional, are taught. Students begin the year by assessing their skill, creativity, and motivation. Students reflect and self-assess their work, which is collected in portfolio form throughout the year. They meet CCS standards.

COMPUTER EDUCATION

Each student receives 14 classes in computer applications annually. The Grade 7 curriculum includes a review of Microsoft Excel, with a written chart analysis, and oral presentation. Students will use the internet for research, and projects using web tools. In Grade 8, students practice using and presenting a variety of web tools, including a project that integrates with the curriculum. Internet safety will be emphasized in both grades.

REGULAR INSTRUCTION - MIDDLE SCHOOL

MATHEMATICS

The program of studies uses problem solving of Real World experiences to promote the master of the topics of: number systems, ration & proportional reasoning, expressions and equations, functions, and probability and proportional reasoning. Through paced, daily instruction, students are provided with strategies to make sense of problems and perseveres in their solution. With collaboration and the use of writing in mathematical context, students develop abstract reasoning and are able to critique the reasoning of others. Both problem solving and discourse are vital 21st Century skills being developed in the mathematics program. Advanced courses are available for qualified students.

PROJECT ADVENTURE

Project Adventure is an institutional adaptation of Outward Bound designed to foster trust, cooperation, support, appropriate risk taking, communication, problem solving, teamwork and fun with all Grade 7-8 students. It consists of a series of adventure games, problem-solving initiatives, trust activities, and low and high challenge elements. Activities span 14 class hours annually and include opportunities for briefing, strategy planning, and debriefing. Students and staff are expected to honor a full-value contract and the concept of "challenge by choice".

REGULAR INSTRUCTION - MIDDLE SCHOOL

READING

The middle school Reading program is literature based with a strong emphasis on vocabulary, literary techniques and structural analysis of text. Reading is a program for those students who need further instruction in reading skills. The reading teachers work in conjunction with clusters, teaching regularly scheduled sections of reading.

REGULAR INSTRUCTION - MIDDLE SCHOOL

WORLD LANGUAGE

World Language instruction is offered in Grades 7 and 8. Both French and Spanish are offered, and both courses of study emphasize the basic skills of listening, speaking, reading, and writing. In addition, emphasis is given to developing an appreciation and knowledge of French or Spanish cultures. Both courses meet three times a week and the two-year sequence is the equivalent of a first year high school foreign language course.

NEWTOWN HIGH SCHOOL

12 Berkshire Rd., Newtown

<http://newtown.nhs.schooldesk.net>

The current Newtown High School was constructed in 1970 and in the late ninety's, additional space of 88,000 was added to the eastern side of the school. A new track and football field were also constructed, and extra seating was installed in the stadium. The reconstruction was complete by January 1998 and the school fully re-opened.

In 2004, the athletic fields behind the school underwent major reconstruction. The entire area was leveled, and new baseball, softball, soccer and football fields were built.

The school has an auditorium with a seating capacity of over 1200 persons.

Renovations began in 2008 to add an additional 77,000-square-foot to the building. The main building of the expansion was scheduled to open in the fall of 2010, but instead was opened in January 2011. The expansion project included: adding a full new wing of three floors, including new classrooms and teachers' offices and a cafetorium (auditorium and cafeteria); renovating the gymnasium; and building a new 400-square-foot greenhouse. In addition, the football field and track were renovated and much more parking was added. The expansion was fully completed in January 2011. With the expansion, the school has a total of 362,131-square-foot.

Board of Education's Requested Budget for 2014-2015

NEWTOWN HIGH SCHOOL

GRADE 9 - 12

<u>Facilities Data:</u>		<u>Square Footage</u>
Originally Constructed	1970	197,000
Additional Space Added	1997	88,000
Storage & Tech Space Converted	2004	
Additional Space Added	2010	77,131
Total Current Square Footage		362,131
Classrooms Currently Available		70
Specialty Rooms		51
Total School Acreage		47.6
Fields Available: 1 Baseball, 1 Softball, 2 Soccer/Lacrosse, 2 Football & 4 Tennis Courts

NEWTOWN HIGH SCHOOL

GOALS

Newtown High School's goals are to improve student learning, create and improve connections between students and adults, and diminish/eliminate mean and cruel behaviors.

<https://sites.google.com/a/newtown.k12.ct.us/neasc/the-neasc-standards>

The New England Association of Schools and Colleges (NEASC) is a private, non-profit, governmental membership organization that serves six New England states. The purpose is exclusively educational. It serves the public and the educational community by establishing and maintaining high standards of educational excellence and utilizing an evaluation process that focuses on self-improvement through effective peer review. Schools that become accredited through the Association's evaluation processes will become members of the Association (cpss.neasc.org). Newtown High School will take part in this re-accreditation process in the fall of 2015.

In preparation for this visit, Newtown High School must undertake an extensive, rigorous self-study involving the participation of faculty, administrators, staff, students, community members, and board members. A steering committee has begun the work necessary for this multi-year process. A committee of professional educators will visit Newtown High School to validate the implementation of accreditation standards. The following are the seven standards:

- Core Values, Beliefs, and Learning Expectations
- Curriculum
- Instruction
- Assessment of and for Student Learning
- School Culture and Leadership
- School Resources for Learning
- Community Resources for Learning

A strong school is an indication of a strong community. Through the collective efforts of all stakeholders, Newtown High School hopes to maintain its accreditation and do its part to keep Newtown strong.

THEORY OF ACTION

The following theory of action statements ensure intentional organizational coherence and alignment with Newtown's strategic improvement process and the Newtown Public Schools Theory of Action. The action plans are strategies used to implement each theory of action and evidence are data points that indicate effects of the strategies above:

1. If the high school leadership team clarifies a common understanding of standards for excellence in instruction and continually converses as a collaborative team, then they will develop common understanding and standards for excellence in instruction.
 - a. Action plan:
 - i. Develop and implement instructional rounds protocol for teachers
 - ii. Focus instructional conversations on domains of Professional Growth Plan
 - iii. Formal observations will all be done in pairs
 - iv. Sharing of observation techniques and reports at Leadership Team meetings
 - b. Evidence:
 - i. Schedule of internal rounds
 - ii. Written observation reports including specific language from domains
 - iii. Leadership Team meeting minutes

Board of Education's Requested Budget for 2014-2015

NEWTOWN HIGH SCHOOL

THEORY OF ACTION (CONTINUED)

2. If the high school provides opportunities and structure for true collaboration, then we will develop a culture of collaborative problem-solving that will create the capacity to continually improve how we do our work and increase students' success.
 - a. Action plan:
 - i. Create building professional learning communities
 - ii. Establish common time for collaboration
 - iii. Identify building focus for collaborative sessions
 - iv. Use faculty and departmental meetings for learning as well as sharing information
 - b. Evidence
 - i. Calendars and agendas of building leadership and staff meetings, and PLCs.
 - ii. End-of-year presentation of PLC work.

3. If responsible assessment is aligned with rigorous curriculum and excellent instruction, then student learning will be deeper and result in higher achievement.
 - a. Action plan:
 - i. Identify (responsible) building/course/grade assessments (screening, progress monitoring, formative, summative, and diagnostic, etc.)
 - ii. Identify and implement core interventions for students demonstrating a need for additional support
 - iii. Engage students and staff in self- and metacognitive reflective practices
 - iv. Standardized, project-based, and common formative assessments are utilized for driving instructional decisions
 - v. Focus on assessment during observation post-conferences
 - b. Evidence:
 - i. Populated databases (INFORM, RtI, 504, etc.) are accessible to teachers
 - ii. Student and staff feedback and personal growth/success plans based upon reflection
 - iii. Multiple measures of assessment demonstrate growth
 - iv. Rubrics are regularly used and known to students
 - v. Assessments are an integral element of work completed by PLC

4. If responsible assessment is aligned with rigorous curriculum and excellent instruction, then student learning will be deeper and result in higher achievement.
 - a. Action plan:
 - i. Teachers will expand their instructionally appropriate use of technology through peer facilitated workshops
 - ii. Social media filters at high school will be opened
 - iii. Teachers will experiment with the use of social media for communication and instructional purposes
 - iv. The administration will work with the PTSA to increase parent awareness of the advantages of incorporating social media into instruction
 - b. Evidence
 - i. Lesson observations
 - ii. Student, faculty, staff, and administration use of Twitter and other social media
 - iii. Community sessions on teacher evaluation and social media in education will be planned

REGULAR EDUCATION – HIGH SCHOOL

ART

The goal of the NHS Art program is to increase student understanding and appreciation of two- and three-dimensional art, in terms of aesthetic attributes and historical context, and to engage students in the purposeful work of exploring their own creative voice by introducing skills in a variety of media. The scope of course offerings range from basic introductory for the curious, to highly advanced studio work for students intending to pursue an Art degree. This reflects our belief that meaningful Art experiences should be available to all students and are critical in the development of well-rounded citizens.

BUSINESS EDUCATION

The goal of the NHS Business Education Department is to provide students with an understanding of the economic principles underlying the free enterprise system, to enhance their understanding of their rights and responsibilities as consumers and producers, and to develop the personal financial skills and work ethic necessary to become contributing members of our society. A broad mix of courses offer learning experiences at the introductory level, as well as advanced challenges for those planning to continue their business studies at the college level.

Career opportunities, real-world application, 21st Century skills, and professionalism are stressed in all courses.

REGULAR EDUCATION - HIGH SCHOOL

WORK EDUCATION

Several student-run enterprises afford students the opportunity to assume increasing responsibility for their own learning, and to practice and advance their acquired skills in an entrepreneurial working environment. We offer several opportunities on campus in the fields of business, horticulture, culinary, preschool, graphics, auto, and computer repair. We also supervise students in several off-campus employment venues as a part of our Cooperative Work Experience program. In all cases, students continually develop their skills in the areas of leadership, teamwork, technology, ethics, and work readiness.

ENGLISH

The English program includes the study of language, literature, and composition, offering students a perspective on the human condition outline of the year that grows increasingly broad and complex over time, in concert with students' increasing experience and maturity. The program provides each student with the appropriate balance of support and challenge to develop skills essential to success in college and the 21st Century workplace: creativity and innovation, critical thinking and problem solving, communication, and collaboration. In the freshman year students read and respond to classic and contemporary poetry, short stories, drama and novels. In the sophomore year students focus on literature from a variety of cultural groups and develop skill in the area of literary analysis. In the junior year, students focus on American Literary Heritage and the importance of literate citizenship. Currently in the senior year students select two semester courses in areas of particular interest: Composition, Creative Writing, Drama Studies, Humanities, Modernism and Mythology, Poetry, Women's Studies, World Literature and Writing Through Film. Juniors may enroll in Advanced Placement Language and Composition. Seniors may enroll in Advanced Placement Literature and Composition.

Work is currently underway to revamp and align existing curricula to the Common Core State Standards through unwrapping standards and designing scope and sequence. This work is part of the Professional Learning Communities focus which will include development of common mid-term and final assessments that will measure student mastery of targeted concepts and skills.

WORLD LANGUAGE

The World Language Department offers a comprehensive program of study that addresses the needs of students at all levels of ability in Grades 9-12. Knowledge of a world language promotes the students' global awareness and prepares them to be citizens of the world. Chinese, French, Italian, Latin, and Spanish are offered at the high school. Students are given the opportunity to continue the study of the language they have been studying since Grade 7 and/or to explore another language. French and Spanish are offered in a five-year sequence with an Advanced Placement (AP) course offered at Level 5 in conjunction with the University of Connecticut Early College Experience Program (ECE). Both the AP and ECE courses offer students college credit. Chinese, Italian, and Latin are offered in a four-year sequence with an AP course completing the study at Level 4. An honors program is offered in Levels 2, 3, and 4 in all languages.

The World Language Department is committed to developing cultural knowledge within students to promote their global awareness, one of the 21st Century learning expectations. Work in the Professional Learning Communities groups has started and will continue to complete common formative and summative assessments to give all students an equal opportunity to share similar experiences. Many of these assessments incorporate technology that permits students to communicate with their peers in Newtown and the world. For this reason, upgrading the present language laboratory is a necessity as it will provide students with the opportunity to excel on the Advanced Placement Exams that now have a listening component taken from authentic internet sources. In addition, as curricula are written, the focus is on vertical alignment between courses in order to increase high expectations in a rigorous environment where students will be comfortable taking learning risks. Academic goals for the coming years include offering upper level elective courses to meet the needs of all students.

HEALTH EDUCATION

Health Education is being offered independently of Physical Education in Grades 9 and 11. Classes are designed to motivate students to maintain and improve their health, prevent disease, reduce health-related risk behaviors, and develop and demonstrate health-related knowledge, attitudes, skills and practices. Health Education topics include safety; social and emotional health; substance use and abuse; disease prevention; and growth and development. The senior health requirement is met through a series of workshops with the goal of helping students to make responsible choices now and in the future.

In order to inspire and establish lifelong healthy behaviors while increasing student accountability, members of the Health Department will work during the Professional Learning Communities process to rewrite curriculum documents to support literacy and numeracy, aligning them with Common Core State Standards. This collaboration of staff members will examine student learning data, instructional strategies, and develop curricula to address the student's physical, social and emotional aspect of health through common assessments and provide students with the tools to become healthy, productive citizens.

REGULAR EDUCATION - HIGH SCHOOL

INTERSCHOLASTIC SPORTS

The NHS Athletic Department is dedicated to giving an opportunity to those student-athletes who have demonstrated a high level of athletic skills to compete on an interscholastic level. NHS coaches strive to develop in our student-athletes an increased knowledge of skills needed to achieve individual and team success through consistency and hard work. NHS student-athletes develop an attitude of respect for teammates, opponents, coaches, officials and will display a positive attitude and good sportsmanship.

The high school offers 27 varsity sports which include Basketball (Boys/Girls), Baseball, Cheerleading, Golf, Boys/Girls Cross Country, Boys/Girls Lacrosse, Football, Boys/Girls Indoor Track, Field Hockey, Softball, Boys/Girls Soccer, Ice Hockey, Boy/Girls Swimming, boys/Girls Tennis, Boys/Girls Track, Gymnastics, Dance, Volleyball, and Wrestling. Over the last 10 years, three new sports (Ice Hockey, Dance, and Gymnastics) have been added to the Athletic Department.

During the 2011-2012 school year, 1141 (this number includes students who play multiple sports) student-athletes participated in the athletic program. This number represents 600 males and 541 females. Whereas during the 2001-2002 school year, only 777 (this number includes students who play multiple sports) student-athletes participated in the athletic program. This number represents 398 males and 379 females.

REGULAR EDUCATION - HIGH SCHOOL

There have been three levels of fees based on the costs associated with each sport.

Board of Education's Requested Budget for 2014-2015
REGULAR EDUCATION - HIGH SCHOOL

FAMILY & CONSUMER SCIENCE

This department is comprised of courses in two distinct disciplines; Child Development and Culinary Arts, each uniquely suited to providing our students with critical skills for succeeding in the next stages of adult life. A central goal of the Culinary Arts program is to ensure that students understand the importance of nutrition, and how to plan and prepare healthy meals for themselves and others. The goal of the Child Development program is to guide student understanding of the developmental needs of young children and the demands of meeting those needs.

Both disciplines stress the value of making quality life-choices, and offer meaningful real-world experiences for those interested in a future in the food service industry, early childhood education, and as parents.

MATHEMATICS

The Mathematics program in Grades 9-12 serves students with a wide range of abilities, interests, and academic needs. The Math Department's goal is to create a set of career- and college-readiness standards to ensure all students have the skills necessary to succeed. The curriculum strives to help students meet these standards through a variety of instructional strategies that include problem solving, collaboration, navigating through information, and analyzing data. The flexibility of the program allows students with different ability levels and backgrounds the opportunity to individualize their learning. The curriculum continues to expand offerings that can earn college credit: CP Intermediate Mathematics, Honors Calculus, AP Calculus AB, AP Calculus BC, and AP Statistics.

The Mathematics program will continue its goal of developing independent learners by offering challenging courses such as multivariable calculus and expand our Advanced Placement (AP) offerings to include AP Computer Science. Embedding 21st Century skills into our curricula will help develop creative thinkers that can compete globally; to accomplish this collaborative learning will be the norm in classes. This year the department will focus on aligning curricula with the Common Core State Standards as we implement the program adopted by the State. As part of this goal, Professional Learning Communities time will be used to create common assessment tasks in each course. The Mathematics program will continue to grow to include new technology such as tablets and the eventual adoption of e-textbooks.

MUSIC

The music program at Newtown High School provides extensive opportunities for all students to participate in the three artistic processes associated with music – creating, performing and responding. The music curriculum is based on the national and state standards for music education. Musical study directly correlates to the Newtown High School Graduation Standards, 21st Century and Common Core skills by encouraging critical thinking, problem-solving, collaboration and creativity. Students explore, develop and analyze strategies on learning, preparing and creating new music for performance (as professionals would), thereby developing their metacognitive abilities. The high school program helps to prepare students for auditions at the regional, state and national music festival levels, as well as college auditions and future careers in the various fields in the music world. Students are exposed to traditional and contemporary repertoire from the advanced high school, college and professional levels.

Music courses at Newtown High School are part of the overall elective program. Course offerings include Concert Band, Honors Symphonic Band, Honors Wind Ensemble, Percussion Ensemble, Freshman Chorus, Honors Concert Choir, Chamber Choir, Honors Symphony Orchestra, Harmony and Composition, AP Music Theory, and Music Technology 1, 2 and 3. Students may create an in-depth unit of study by participating in the Senior Project Program (i.e. composing, conducting).

PHYSICAL EDUCATION

The Physical Education program provides a safe, supportive environment where students have the opportunity to build confidence, knowledge, skills, and a sense of independence in promoting a healthy lifestyle. Physical Education experiences include physical fitness, aquatics, and lifetime activities that promote responsible personal and social behaviors. Instruction in Grade 9 Physical Education is geared toward building a foundation in fitness and lifelong activities. Grade 10 Physical Education students broaden their knowledge and skills in four health-related fitness components: muscular strength, muscular endurance, flexibility, and cardiovascular fitness. During Grade 10 Physical Education, students are tested on their current health-related fitness level through the administration of the Connecticut Physical Fitness Assessment. Students in Grade 11 Physical Education refine their knowledge and skills for successful, independent participation in lifetime activities.

The Physical Education program is committed to energizing and educating the students of Newtown Public Schools to be physically fit, healthy, and ready to learn. Previous Professional Learning Communities opportunities have addressed the development of common formative and summative assessments that offer meaningful and challenging experiences to students. The department is committed to refining these assessments and incorporating both numeracy and literacy skills, where appropriate, supporting the Common Core State Standards. In supporting the common core, the department will promote learning activities that lead to real world, interdisciplinary connections.

SCIENCE

The Science program consists of core courses in Biology, Chemistry and Physics, and other scientific disciplines such as Astronomy, Biotechnology, Environmental Science, Forensics, Human Anatomy, and Oceanography. The program also offers: Applied Science Research, a class in which students design and perform original research; Foundations of Health Science and Technology where they can develop valuable background for careers in health care and meet 21st Century learning expectations through focused collaboration and the use of technology; and all five Advanced Placement Science courses offered by the College Board. Students can also earn Science credit through the Newtown High School Greenery program. Most courses are offered at either two or three different ability levels, and instruction is differentiated to meet the unique needs and interests of all students. Students can meet the Newtown High School graduation standards for Problem Solving, Spoken Communication, and Information Literacy, and programs of study can be tailored to address individual career and academic goals for students while meeting Science graduation requirements.

The Science program is committed to developing within students a keen scientific literacy and providing them rigorous preparation for further study. Academic goals of the program include the expansion of elective offerings into a variety of fields, including Meteorology, Plant Science, and Public Health, the further integration of 21st Century skills into course curricula, the continued development of the Applied Science Research course in its new format as a three-year program affiliated with the University of Albany, and the establishment of more interdepartmental experiences similar to existing efforts between Oceanography and Culinary or Physics and Language Arts. Among supporting goals is the widespread use of technology in all Science courses, including tablet computers, presentation hardware, digital laboratory equipment, and the exclusive adoption of e-textbooks. Additionally, the development of a formal chemical hygiene plan, administered by a trained chemical hygiene officer, is a vital component of a safe learning environment.

HISTORY/SOCIAL SCIENCE

The History/Social Science program at NHS consists of courses in History, Contemporary World Cultures, and the Social Sciences. The purpose of these courses is to prepare students to lead productive and fulfilling lives as responsible citizens in a world that is diverse, dynamic and interdependent. The Social Science program seeks to help students acquire the requisite knowledge, skills, values, and experiences to understand and participate in local, national, and global communities. To this end, the Social Science Department continues to rewrite curriculum documents in the Lynne Erickson concept-based format, where teachers focus on generalizations and broad concepts, which allow them to set up a rigorous environment with high expectations that challenges students to take appropriate learning risks.

This work is continued through the Professional Learning Communities process. The Social Studies Department is aligning curriculum and working toward common assessments throughout like courses to give all students equal opportunity to share in similar experiences. Many of these assessments are moving toward greater use of technology and collaboration to help prepare our students for the advances and challenges they will encounter in the 21st Century technological world. Currently six credits are required for graduation, two of which must be in United States History, one in American Government, one in Economics, one in Western Studies, and one in an area study chosen by the student.

TECHNOLOGY EDUCATION

The goal of our Technology Education Department is to provide students the opportunity to explore a variety of career options in a hands-on environment, with learning opportunities ranging from introductory, to advanced-level for those planning to explore post-secondary training. The program includes power technology, automotive technology, graphics, drafting, architectural design, video production, photography and computer repair.

All courses require students' active engagement in their independent learning, and quality contributions to collaborative efforts are expected.

LIBRARY MEDIA PROGRAM

The mission of the Newtown High School Library Media Program is to ensure that the Newtown High School community has access to diverse resources and technologies that inspire and support superior research, personal enrichment and a love of reading. Through the delivery of a robust curriculum, aligned with state and national standards, the library media specialists instruct students in the development of 21st Century skills necessary to succeed in an ever changing world and competitive job market.

Through the collaborative development of engaging research experiences, library media specialists embed rigorous 21st Century skills instruction across all subject areas to provide students with opportunities to become critical and effective users of information, creative problem solvers and socially responsible contributors to the global community. As a central learning hub of the school, the Library Media Center is not limited to the physical space of the media center, promoting and modeling a broad use of current technology. By providing models for instructional and research strategies to staff and students, the Library Media Program strives to foster a community that pursues rigorous academic goals and personal responsibility.

The Library Media Program goals are based on close collaboration with teachers to develop research units that are rich with opportunities for students to develop critical thinking and information, technology and media literacy skills. In doing so, the librarian media specialists provide students, faculty and staff with 24/7 access to our online library catalog and an extensive database collection. The department works to provide access to cutting-edge resources and technologies that meet the demands of changing national and state educational initiatives. By maintaining an up-to-date collection that meets the instructional goals of teachers across the curriculum, the Library Media Center meets the needs of the diverse learning needs and interests of our students.

This collectively fosters a love of reading in students that offers a selection of quality literature in addition to a monthly book club and discussion blog. These goals continue to reinforce ongoing group and individualized professional development opportunities for teachers in the use and integration of information, technology and media literacy skills as we prepare our students as contributing members of a global community.

Classroom Instruction

The Junior/Senior Project Program is designed to enable students to build on existing strengths and to provide an opportunity for further study not available in the traditional classroom. The program provides motivated and responsible high school juniors and seniors the opportunity to explore a subject/career that they are passionate about and develop a career-oriented relationship with a community professional (mentor) in the student's area of chosen interest. Students participate in this course in order to distinguish themselves in the college application process, to access scholarships, and/or to practice the time.

Classroom instruction includes supplies and copy paper for all Newtown High School departments. Each year, Newtown participates in a consortium of vendors to access the best pricing available. The account also covers staff development and staff travel expenses, including expenses related to workshops, conferences, professional learning communities, instructional professional growth, and collaboration. The graduation ceremonies are held at the O'Neill Center at the Western Connecticut State University West Side campus. Transportation and rental accommodation costs associated with the event fall under this account.

FLEX

FLEX is a transitional program designed to provide small group academic and behavioral support for students. The program is designed to be FLEXible. Students will participate in their regular course/class schedule while at the same time participate in FLEX for individual support and instruction – in order for them to meet success in the mainstream classroom.

Education Connection's Regional Medical Internship Program

This program is designed to allow juniors and seniors to explore and understand healthcare careers. Newtown is one of ten participating school districts. Students complete 18 weeks of a paid internship either in one of the local hospitals or with a community healthcare provider, attend monthly classes related to health science, technology, and career development. The goals of the program are to provide meaningful work-based learning, encourage informed post-secondary planning, develop a professional work ethic, and to expose participating students to work-based mentoring relationships.

Administration

The Administrative Team of four administrators and seven support staff members oversees all educational and organizational aspects of school life for 1759 students and 204 adult staff members. The Newtown High School Administrative Team implements organizational structures, practices, and policies within Newtown High School. They support the goals of Newtown High School and district for student achievement and personal success as they prepare graduates to be contributing members of a dynamic global community. The attendance office maintains and catalogs student attendance records and student excuse notes, calls parents/guardians to confirm early dismissals, organizes a daily attendance report for teachers and administrators, and communicates with administrators, teachers, and school social workers about student attendance. Communications, printing materials, postage and administrators memberships are also covered under that account.

NURTURY PROGRAM – HIGH SCHOOL

General Information

The Nurtury program is a laboratory school, one designed to teach two groups of students simultaneously. High school students enrolled in Child Development II or Early Childhood Education work directly with three and four year olds in a preschool setting under the direction of a head teacher. The Nurtury acts as a training ground for future childcare professionals/parents as well as future kindergarteners.

The preschoolers benefit from a multitude of “teachers” who are learning about the latest research and methods in childcare and education. Each preschooler is paired with a buddy who works with them throughout the semester, leading to long-term positive relationships with caring adolescents. Both the teens and preschoolers find these partnerships rewarding and instructive.

Board of Education's Requested Budget for 2014-2015
NURTURY PROGRAM – HIGH SCHOOL

Course Description from Program of Studies

Child Development I

CHILD DEVELOPMENT 1 0.5 credits

1st or 2nd Semester

Students will study the principles of child development from birth to preschool age via discussions, readings, and cooperative group work. Areas of study include physical, cognitive and social-emotional development; the roles and responsibilities of parenting; family and heredity/environmental influences. NO prerequisite.

Child development II

CHILD DEVELOPMENT 2 0.5 credits

1st or 2nd Semester

Students will spend three classes per rotation studying preschool policies, procedures and planning. The remaining three classes will be spent applying these concepts in a laboratory preschool for three and four year old children. Units of study include preschool policies/procedures, health & safety, discipline, and observation. Students will develop learning materials and activities for the various centers in addition to maintaining anecdotal records of one child's developmental progress throughout the semester.

Prerequisite: Child Development 1 and instructor approval

Early Childhood I

EARLY CHILDHOOD EDUCATION 1 0.5 credits

1st Semester Only

Students are responsible for creating multiple educational activities and developmentally appropriate lesson plans for our laboratory preschool. Each student will teach their own lessons in a large group setting and self-assess their effectiveness. Students make use of their creativity to complete projects in storytelling; science experiments; dramatic play prop boxes and/or bulletin boards. A study of various types of childhood programs and philosophies will be conducted via individual fieldwork. Students will also construct authentic assessments to determine how preschool students are progressing in concept and skill acquisition.

Prerequisite: Child Development 1 & 2 and instructor approval

Note: Only students who are committed to acting as responsible role models, by following all the rules stated in the student handbook, should enroll in ANY of the courses in the Early Childhood Education sequence.

EARLY CHILDHOOD EDUCATION 2 0.5 credits

2nd Semester Only

Students are responsible for creating multiple educational activities and developmentally appropriate lesson plans for our laboratory preschool. Each student will teach their own lessons in a large group setting and self-assess their effectiveness. Other topics of study include parent involvement and communication; learning styles and multiple intelligences; using technology in early education, and guiding children with special needs.

Prerequisite: Child Dev. 1 and 2, ECE1, and instructor approval.

Note: Only students who are committed to acting as responsible role models, by following all the rules stated in the student handbook, should enroll in ANY of the courses in the Early Childhood Education sequence.

**Board of Education's Requested Budget for 2014-2015
NURTURY PROGRAM – HIGH SCHOOL**

Schedule:

The NHS Nurtury schedule is a function of the high school schedule; therefore, specific dates and hours of operation aren't finalized until the NHS schedule is finalized. However, the NHS Nurtury does guarantee that, when in session, the following elements will be included in the final schedule:

The Nurtury will meet at least 50% of the days of the NHS schedule.

Nurtury sessions will be neither shorter than 70 minutes, nor longer than 3.25 hours.

Student drop-off will be no earlier than 7:30 am

Student pick-up will be no later than 1:50 pm

Fees:

Registration:

A registration fee of \$75.00 is due with this signed contract. If accepted, this ensures your child's enrollment in the NHS Nurtury program for the 2012-2013 academic year. This fee is not refundable.

Tuition:

Tuition for the 2012-2013 academic year is \$875.00.

Terms:

This contract is a commitment to enroll your child in the NHS Nurtury program for the full academic year.

Tuition is not refundable.

Advanced registration prior to publication of finalized calendar will afford you a refund of \$75 payable in June, provided you meet the agreed tuition payment terms.

You may pay tuition in full by September, or in two equal installments due: September & November

No tuition adjustments will be made for sessions missed due to illness, holidays, inclement weather delay/cancellation, high school exams, or staff development.

The Nurtury is a laboratory classroom, and is designed to meet the needs of most preschool learners. If the circumstances ever arise that a student's placement in Nurtury is deemed inappropriate, we will meet with the parent(s)/guardian(s) of that child to recommend a plan that might better suit that child's needs.

In order to provide the best educational experience, early childhood providers must understand your child's health needs. The Nurtury requires that The State of Connecticut Department of Education's Early Childhood Health Assessment Record be completed for each child prior to attendance. The State of Connecticut Department of Education's Early Childhood Health Assessment Record requests information from you (Part I) which will also be helpful to the health care provider when he or she completes the medical evaluation (Part II). State law requires complete primary immunizations and a health assessment by a legally qualified practitioner of medicine, an advanced practice registered nurse, a physician assistant or the school medical advisor prior to school entrance in Connecticut.

Board of Education's Requested Budget for 2014-2015

SPECIAL EDUCATION SERVICES

Special Education Programs summarized here include the following services:

- Director of Pupil Services Office
- Professional Education Services – OT, PT, Blind
- Out-of-District Special Ed. Tuition – Public & Private
- Home Bound & School Tutors
- Gifted & talented Services (GATES)
- Special Education Services (Includes STARR Program)
- Extended School Year Services+
- Pre-Kindergarten
- Transitional program

SPECIAL EDUCATION BUDGET DEVELOPMENT

The largest impact on the Special Education budget is not necessarily the total number of students but rather the service needs of each individual student. Services range in cost from a few hundred dollars to as much as \$300,000 for one student per school year. Special Ed represents 11% of the total 2013-14 budgets and accounts for 400+ students. Not all costs, however, are tracked under the “Special Ed” budget category.

By law, the total Special Ed budget cannot be reduced without fulfilling a detailed and specific set of criteria (referred to as the Maintenance of Effort or MOE). In simple terms, it means that the district is required to maintain its current level of special funding in order to be eligible for Federal dollars under IDEA/Individuals with Disabilities Education Act.

SPECIAL EDUCATION PROGRAMS

The Connecticut Department of Education's "Parent's Guide to Special Education on Connecticut" (2007) refers to special education as services provided to a child with an identified disability who requires specially designed instruction to meet his/her unique needs. These services also enable the child to access the general curriculum of the school district. A child who is eligible for special education services is entitled through the Individuals With Disabilities Education Act (IDEA) to receive a free appropriate public education (FAPE). FAPE refers to the quality of educational services provided to students with disabilities with these services determined to be equal to those services provided to non-disabled students. The interpretation of FAPE differs from student to student because each student has unique needs. Each local educational authority (LEA) is mandated to the following:

- Comply with the procedural requirements of IDEA
- Address the child's unique needs as identified through evaluations, observation, and the child's educational team
- Coordinate services and specially designed instruction to ensure the child is able to make adequate progress in the educational setting.

Specially designed instruction can include:

- Individual instruction, as outlined in the student's IEP/Individualized Education Plan, developed collaboratively by the planning and placement team (PPT).
- Related services, which are those services that are required in order for a child to benefit from special education, may include but not limited to, psychological and counseling services, speech and language services, audio logical services, guidance, social work, transportation, physical and occupational therapy and medical services that are required for diagnostic or evaluation purposes.

Pupil Services must demonstrate a standard of excellence as evidenced by the consistent implementation of professional practices. To adhere to this goal, appropriate supervision and provision of programming is necessary to achieve best practice in the delivery of specialized instruction and service.

Board of Education's Requested Budget for 2014-2015

SPECIAL EDUCATION PROGRAMS

PROFESSIONAL EDUCATIONAL SERVICES

To facilitate the various needs of each individual child, the school district must provide related services in the areas of Occupational and Physical Therapy. These services assist children in accessing the special education services they receive. As defined through the Connecticut State Department of Education Guidelines, occupational and physical therapists focus on assisting students to acquire the functional abilities necessary to access educational materials and adapt to their educational environment. They may help students with daily activities related to educational participation, adapt the performance context, teach alternative methods, or facilitate the use of assistive devices. These support personnel work in schools with other educational professionals, members of the community and families to help all students engage in their educational activities. Additionally, services for the blind include creation of accessible materials through the teaching of braille or other adaptations.

Board of Education's Requested Budget for 2014-2015

SPECIAL EDUCATION PROGRAMS

Tuition

The school district is required by law to provide a free appropriate education for all students (FAPE). To appropriately meet the needs of our students with significant requirements for the most specialized programming available, the tuition line funds out of district placements in these programs. Additionally, costs for placements associated with Due Process and mediations are funded through this line. Our out of district placement percentage is 7.2%. The state average is 7.2%. The out of district placement target set forth by the Connecticut State Department of Education is 6%.

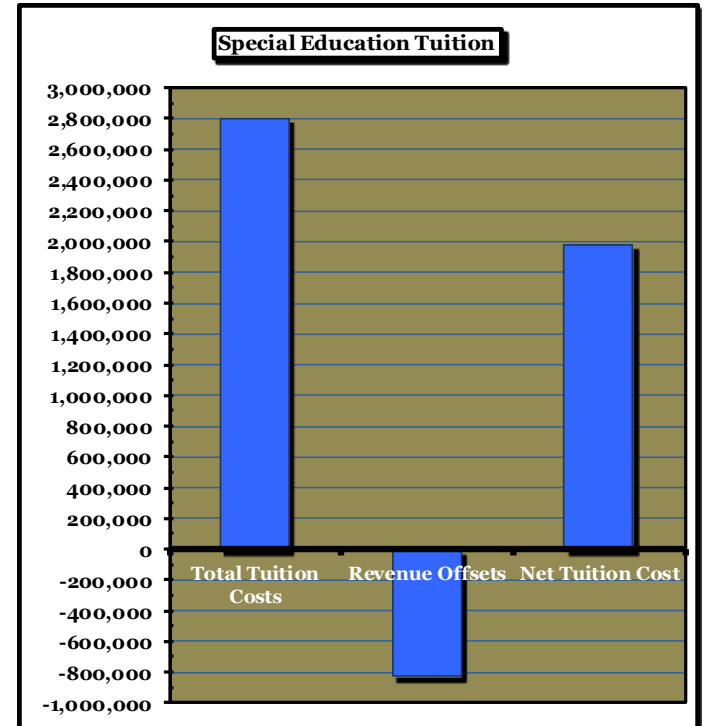

Unanticipated – Students and Increases

Out-of-district placements often pose a challenge to staying within a set budget. Private special education schools also have the right to increase tuition and often new rates are set after budgets are determined.

Board of Education's Requested Budget for 2014-2015 SPECIAL EDUCATION SERVICES

** A State Grant that provides current reimbursement for tuitions that exceed four and a half times our prior year average per pupil cost. (Based on 2013-14's estimated per pupil costs. The cost per student would have to exceed \$60,465 in 2013-14 and \$69,314 in 2014-15)*

*** A State Grant that provides current reimbursement for tuitions that exceed our prior year average per pupil cost when the child is placed by an outside agency. Based on current budget increase and enrollment, 2014-15's average cost was estimated at \$15,403)*

Note: Both of these Grant programs have been limited by a statewide funding cap. Revenue is estimated at 75% of expenditures eligible for reimbursement.

SPECIAL EDUCATION EXCESS COST GRANT / REIMBURSEMENT EXPLANATION

Represents the percentage reimbursed by the state to school districts for Special Education costs incurred over and above the base line cost of 4.5x per pupil expenditure per year (known as the "threshold"). The education budget is responsible for the amount over the threshold. The dollars vary year to year and any changes in the reimbursements amount directly impacts the total BOE budget bottom line.

The reimbursement is computed based in the entire State's Special Education population and covers all costs paid for by the district including tuition and transportation for all out-of-district and in-district special education services. In theory, the Excess Cost Grant is designed to reimburse districts for 100% of these funds.

The actual amount reimbursed above the threshold to the district has usually fallen below 100%. For the 2011-12 school year, the BOE budget was 75% but actual was 76.29% with each percentage point representing approximately \$20,000 of the total budget. Since the Special Education Excess Cost Grant comes directly to the schools as a reimbursement and varies year to year, the district cannot accurately plan for a consistent amount annually, any changes in the state reimbursement level impacts the BOE budget because it means that less or more money (depending in if the percentage change is an increase or decrease) will be reimbursed so the BOE is then responsible to make up or benefit from that difference with non-special ed. dollars.

The state determines the reimbursement percentages in January and June of each fiscal year. Percentages allocated in January vs. June can vary although the trend has been relatively consistent. If the reimbursement percentage allocated in January is different from the budgeted, dollars may have to be shifted or "frozen" to account for the change. To simplify the ECS grant reimbursement formula, the following is a hypothetical example using a reimbursement rate of 75%

Cost		
	Tuition	\$100,000
	Transportation	\$40,000
	Total	\$140,000
Basic Contribution		
	Prior Year Net Cost Per Pupil	
	$\$13,437 \times 4.5 =$	\$60,465 Threshold
	Eligible Cost	$\$140,000 - \$60,456$ \$79,534
	Actual Reimbursement: $\$79,534 \times 75\%$	\$59,651
Newtown Education Budget's Responsibility: $\$140,000 - \$59,651 =$		\$80,349

Board of Education's Requested Budget for 2014-2015

SPECIAL EDUCATION PROGRAMS

Speech and Hearing Services

The Individuals with Disabilities Act (IDEA 2004) includes speech and language impairments that adversely affect educational performance among the types of disabilities requiring special education and related services [IDEA 2004, § 602(3)(A); 34 CFR, 3008.8(a)(1); and 34 CFR, 300.8©(11)]. The Newtown Public Schools provides a continuum of support through the use of certified speech and language pathologists. Students receive services if they are identified as speech and language disabled or are determined to require speech and language services to support the provision of their special education services. Students who may be in need of early intervention also receive services through SRBI.

Federal and state statutes require school districts to educate ELL students to ensure that they make progress in the English language as well as other subjects so that they have meaningful access to and an equal opportunity to participate in school programs. Though not a statutory requirement, the Connecticut State Department of Education (CDSE) has written guidelines stating that it is a school district's responsibility to ensure that all ELL students are taught by certified Teacher of English to Speakers of Other Languages (TESOL) or bilingual teachers.

Gifted and Talented

Through the provision of IDEA and CT Regulation sec. 10-76d-9 (c), LEAs are required to evaluate and identify gifted and talented children using the planning and placement team (PPT). Although services for children identified as talented or gifted are not a mandated requirement, the Newtown Public Schools currently provides programming for those students identified. This includes the accelerated math teacher in the 7th grade.

SPECIAL EDUCATION PROGRAMS

Transition Services for 18-21 year olds

The term "transition services" means a coordinated set of activities for a child with a disability that:

- Is designated to be within a results-oriented process, that is focused on improving the academic and functional achievement of the child with a disability to facilitate the child's movement from school to post-school activities, including post secondary education, vocational education, integrated employment (including supported employment); continuing and adult education, adult services, independent living, or community participation;
- Is based on the individual child's needs, taking into account the child's strengths, preferences, and interests; and
- Includes instruction, related services, community experiences, the development of employment and other post-school adult living objectives, and, if appropriate, acquisition of daily living skills and functional vocational evaluation.

Transition into the adult world can present challenges for all young people. The process of transition may be more difficult for some youth with disabilities and will require unique strategies to enable each student to achieve the maximum possible independence in working, living and participating in the community as adults. The transition program addresses these needs through a student's individualized education program.

PUPIL PERSONNEL SERVICES

Newtown Pupil Services is an extensive department that is at the core of student support. Our staff provide a multitude of services such as speech & language therapy, occupational therapy, physical therapy, behavioral therapy, health services, social work, school counseling, school psychology, special education and gifted and talented. Pupil services personnel engage in direct services for students who may have an individualized education plan (IEP) or through consultation with interdisciplinary teams. Although not all students receive direct services from providers, the pupil service team is an integral part of our educational process. Our specialized staff members are continually working with regular education teachers, parents, and other district personnel to ensure each student is receiving appropriate educational supports. Pupil Personnel Services summarized here include the following services:

- Guidance Services
- Health and Medical Services
- Social Workers & Substance Abuse Counselor
- Psychological Services

GUIDANCE DEPARTMENT

School counselors work integrally with all students, teachers, families and members of the community. They assist students in making decisions and developing strategies. Counselors guide the academic, career, social, emotional, and personal success of students. The department goals are aligned with the Connecticut Comprehensive School Counseling Program. School Counselors:

- Act as a resource for all students and their families
- Teach classroom guidance lessons to all students to help identify their skills, abilities, interests and personal achievements
- Introduce and implement state-mandated individual Student Success Plans
- Help students and teachers use the Naviance web-based portfolio software
- Monitor the RTI process for individual students which includes meeting with cluster teachers, data collection and action planning to help students progress
- Provide individual and group counseling to promote personal, social, and academic development
- Collaborate with teachers, administrators, and staff
- Implement Safe School Climate initiatives

HEALTH AND MEDICAL SERVICES

Nurse Administration

A nurse supervisor is required to provide adequate clinical supervision and professional resources to meet the needs of school nursing staff members. Clinical supervision of school nursing requires discipline-specific training and expertise (CSDE, 2004) and experience in the practice of school nursing and school health or a related clinical setting. The school nurse supervisor responds to practice issues in school nursing and school health, such as appropriate assessment techniques, best practice methodology and skill-building in all role functions. Supervision is initial and ongoing direction, procedural guidance, observation and evaluation. Oversight and compliance of all state mandates is also a vital function of this role.

PUPIL PERSONNEL SERVICES - HEALTH AND MEDICAL SERVICES

Elementary & Intermediate/Middle School & High School

Student health is one of the most significant influences on learning and achievement. In line with the district plan to demonstrate a standard of excellence as evidenced by the consistent implementation of professional practices, "School nursing is a specialized practice of professional nursing that advances the well-being, academic success, and life-long achievement of students. To that end, school nurses facilitate positive student responses to normal development; promote health and safety; intervene with actual and potential health problems; provide case management services; and actively collaborate with others to build student and family capacity for adaptation, self-management, self-advocacy and learning." (Adopted by the National Association of School Nurses, June 1999)

PUPIL PERSONNEL SERVICES

Social Workers and Psychological Services Public

As cited by the Practice Guidelines for Delivery of School Social Work Services, the mission of school social workers is to promote and support healthy development in all children to attain their maximum potential and benefit from the education afforded them through the educational process. Using an ecological perspective, school social workers foster social-emotional competencies and academic achievement by assisting students, families, schools and communities in identifying and addressing barriers to learning and helping students realize their full potential. A substance abuse counselor is also utilized to provide an additional resource for students at-risk. The mission of school psychologists is to promote educationally and psychologically healthy environments for all children and youth by implementing research-based, effective programs that prevent problems, enhance independence and promote optimal learning. (Adapted from National Association of School Psychologists (NASP) Mission Statement, 1997)

Board of Education's Requested Budget for 2014-2015

CURRICULUM & STAFF DEVELOPMENT

Curriculum and instruction defines the content and skills students are taught in each grade, and the methods and strategies used for teaching including the shift in focus reflected in literacy and mathematics standards in preparing our students for Smarter Balanced Assessment in 2015, meeting Newtown High School graduation standards, and preparing global citizens for their place in the 21st century.

The beliefs at the core of this effort are:

- All students will excel in a rigorous environment with targeted outcomes that reflect the unique needs of every learner.
- Education is a shared responsibility that requires persistence and effort of students, teachers, parents, and community.
- Educators have a responsibility to challenge students to take appropriate learning risks, to inspire students to take ownership of their learning, and to provide a variety of opportunities to support student learning both within and beyond the classroom.
- Continuous improvement requires critical reflection, peer collaboration, investment in student growth, and the courage to change.

K-12 curriculum committees in the areas of Language Arts, Mathematics, Science, and Social Studies meet on a regular basis to evaluate the effectiveness of district instructional programs and to plan for continuous improvement. These committees work to make the curriculum flow logically from grade-to-grade, provide for a range of student interests and needs, and tie to state and national standards. Curriculum writing teams are formed in all subject areas (Art, Business, Library and Computer Technology, World Languages, Health, Language Arts, Math, Music, Science, Social Studies, and Technical Education) to develop and/or revise course or grade level documents. When new curriculum documents are completed and approved by the Board of Education, specialized materials, software, and texts are provided to support the curriculum.

The district Theory of Action states: *If the district provides a high quality curriculum through appropriately rigorous instruction, then content knowledge and deeper understanding will be reflected in student achievement.*

The action plan to achieve this goal includes:

- *Development of a high quality curriculum*
- *Identification and implementation of instructional best practice*
- *Focused K-12 teaching and learning on identified standards and 21st century learning expectations*
- *Implementation of programs that ignite student achievement*
- *Utilization of differentiated instruction*

Board of Education's Requested Budget for 2014-2015

CURRICULUM & STAFF DEVELOPMENT

Areas of focus include:

- *Embedded literacy standards into all curriculum documents*
- *Embedded 21st century learning expectations into curriculum documents*
- *Revision of all district documents into a common format*

Staff development is provided for all certified staff in a number of ways and focuses on improving student learning. Beginning teachers, and teachers new to the district, attend a week-long induction and are assigned mentor teachers who work and support them in their first two years of teaching. All teachers engage in professional learning communities studying data and developing strategies relevant to the needs of their students. Throughout the school year, in-service workshops that target school and district initiatives are provided and attended by Newtown educators. Professional learning opportunities (online and small-group) are offered during and after school hours as well as over the summer months. These opportunities allow educators to expand their knowledge in a content area, increase their repertoire of instructional strategies, and/or further develop leadership skills in settings that are conducive to their needs. This budget also includes funding for a standardized testing resource to measure student achievement in Grades 2-12 providing important data to measure academic progress for instructional decision making.

Professional learning includes the following initiatives:

- *Reading and Writing Workshop model*
- *K-9 mathematics program*
- *Teaching practices that incorporate shifts in instruction*
- *Supervision and evaluation of teachers and administrators*

In Fall 2015, Newtown High School will host a visiting team from the New England Association of Schools and Colleges (NEASC). This visiting team will gather evidence for the renewal of the high school's accreditation. In preparation for this visit, Newtown High School must engage building and district-wide staff in ongoing work to acquire the following: data collection and organization providing evidence that Newtown High School meets NEASC accreditation standards; the completion of a self-study that requires hours of writing answers to questions prior to the visit; interview and visitation schedule development; planning for student, parent, teacher and community involvement. The task demands the focused attention of a small group of individuals to conduct the work and craft a clear picture of NHS within the larger community. This budget includes funding for professional resources to continue the preparation for the 2015 NEASC accreditation visit.

INFORMATION TECHNOLOGY SERVICES

DESCRIPTION/GOALS

The Newtown Public Schools Technology Department works in support of the district's technology vision statement which reads as follows:

Newtown Public Schools recognizes that technology is vital to prepare students for lifelong learning and workforce readiness.

We will:

- *Integrate curriculum and technology to inspire a collaborative learning community that can effectively find, evaluate, use, and create content.*
- *Identify and utilize existing, emerging, and cost-efficient technologies that enhance learning.*
- *Promote the safe and ethical use of technology.*
- *Ensure equitable access to technology.*
- *Provide professional development and technologies necessary to deliver the curriculum, to communicate, and to access, manage, and evaluate student-related information.*

The Technology Department is responsible for the maintenance, upgrade and repair of network infrastructure, Voice over IP (VoIP) systems, computers, laptops, interactive whiteboards and other technologies in use throughout the District. A help desk software is utilized to not only track help requests but also provide for equipment inventory.

In addition to hardware, the department supports district staff in the use of primary production software packages: PowerSchool as our student information software, Destiny for library cataloging and circulation, Café Terminal for lunch services, School Messenger for communication to parents, and School Desk for district, school and teacher websites. The department also continues to support the payroll/human resources and accounts payable departments use of the Sungard Pentamation Phoenix Software. It is responsible for the creation and the maintenance of accounts for student and staff network access, district and school web pages, student and staff e-mails and staff voicemails.

The requested 2014-2015 budget for the Technology Department is \$1,316,917, a 19.64% increase over the current budget. Of this amount, \$446,756 is for equipment requests. The equipment request is \$121,197 over the 2013-2014 equipment request. The equipment request is comprised of the replacement of obsolete equipment, Voice over IP for the only remaining school, priority requests from building administration and mobile technology to better position the district for the Smarter Balanced assessments.

The total request without equipment is \$94,971 over last year's approved budget or an increase of 12.25%. This increase is in part due to the need to restore \$50,000 to contracted services that had been covered by a donation in the 2013-2014 school year. Sophos our anti-virus software had previously been paid for under a three year contract that expires in the 2014-2015 budget year. There is \$28,000 included to cover the renewal cost. Additionally, there is a new cost of \$2,970 for the renewal for VMWare. The joint Payroll and Human Resources hosting environment resides on VMWare servers. The remaining increase can be contributed to typical increases and decreases to the operating budget of the department.

Board of Education's Requested Budget for 2014-2015 INFORMATION TECHNOLOGY SERVICES

BUDGET HIGHLIGHTS

The current technology staff includes: a Director, 4 Technicians, 1 Data Base Administrator (reporting to Assistant Superintendent), and a Help Desk Coordinator. With the exception of the director position, all staff are members of the Educational Personnel Union.

The department has been at this level of staffing for the last 7 yrs. During those 7 years, the demands on the staff have grown. Not only has the number of computers and laptops grown by almost 300, the number of projectors that must be serviced and maintained has passed 380. District technology use today incorporates many more types of equipment such as SmartBoards, projectors, Novas, Enos, over 800 iPads, and a VoIP system that is in use in seven sites just to highlight a few. These numbers can only begin to quantify the workload on the department. They do not address maintenance of the network infrastructure inclusive of wireless, nor do they include the support needed due to the growth in use of software packages and maintenance of accounts to access them.

The charts below show the growth in equipment types and quantities from April of 2009 to November of 2013.

<u><i>Inventory by Type - April 2009</i></u>		<u><i>Inventory by Type - November 2013</i></u>	
Type	Count	Type	Count
Computer	1386	Access Point	301
Dot Matrix	1	ASA Firewall	2
Hand Held	5	Clicker System	10
HDTV	1	Computer	1519
Imagistics	15	Document Camera	11
Ink Jet	2	Eno	43

Projector	103	Laptop	635
Server	45	Laser Printer	295
Smart 680i	25	Microphone Speaker system	10
SmartBoard	35	Mimio	56
Tablet	5	Nova	46
Grand Total	2413	Projector	382
		Router	7
		Server	53
		SmartBoard	180
		SmartTable	4
		Tablet	7
		Thin Client	96
		Touch Monitor	7
		Grand Total	4720

Board of Education's Requested Budget for 2014-2015 INFORMATION TECHNOLOGY SERVICES

During the 10 month school year from August 2012 through June 2013, the tech department closed over 2000 end user tech help requests. This number does not include the work needed to bring the Chalk Hill facility on line. It also does not reflect the casual question that each tech and the help desk answers on a daily basis. Nor does it include any project based work which may include virus removal, proactive preventative maintenance, and research on new deployments.

During the remaining summer months, the department replaces obsolete equipment, and does upgrades and preventative maintenance of software and hardware, touching as many of the over 2000 laptops and computers in use in the district in preparation for the upcoming school year. Although staff is scheduled to complete some of these tasks during the school year, priorities are changed daily to accommodate the demands for assistance, setup and repair needed to deliver the curriculum, meet the needs of our staff and students and keep the business running day-to-day.

In 2009 an additional technician position was added but then eliminated later that same budget year due to financial constraints. In spite of the best efforts put forth by the department staff, the loss of this position has resulted in slower resolution times that become more and more pronounced as equipment use and types grow.

There is an immediate need for additional Technology Support Technician. If the addition of a staff member cannot be supported in this budget, it is requested that consideration be given to increasing the Extra Work line to allow for an increase in paid overtime.

Staff Training – down 6.58%

Training is provided to help the staff acquire and maintain skills in the District adopted operating systems, software and hardware. There is a decrease of \$1000 for this request due to a change in a Dell requirement for support technicians renewals.

Board of Education's Requested Budget for 2014-2015 INFORMATION TECHNOLOGY SERVICES

Contracted Services – up 45.44%

The large increase is due to the restoration of \$50,000 that had been covered by a donation for the 2013-14. Included in the budget request for contracted services is the maintenance and support of district adopted software and hosting services.

In support of communication internal and external to the district, costs are included here for School Messenger for mass calling and emailing, School Desk for web hosting, Google for email archival and Cisco for licensing of our VoIP system, paging interface and reporting software.

Support for our primary student information databases is also a part of this request. The databases include PowerSchool for demographics, grading and scheduling, Inform for storing and analyzing student achievement as measured by state and district testing scores, and SNAP for immunization, physicals and medical visit tracking. The technology department budget also includes fees paid to Sungard to provide for support of Phoenix payroll, human resources, and general accounting.

The services of E-Rate Online are secured to complete the filings needed for the District to obtain 40% reimbursement of our telecommunications and Internet costs.

Dollars are also included here to pay for support of: Trackit, the technology department inventory and tech help ticket tracking system and Tools Forever to aid in bulk user account creation. Additionally, support for network design changes, needed wiring and PowerSchool backups are part of this request.

Instructional Supplies – up 99.89%

For the Technology Department, dollars in this account are used to purchase supplies that do not qualify as office supplies. They include USB keys, cables, adaptors, memory and small printers. This year's request includes additional dollars to support the iPads in the district. The supplies needed include such items as Apple TV for displaying student work and fixtures for using the iPad as a document camera and to record video.

Office Supplies – No change

Software - up 49.98%

The Tech Software Account covers the cost of software licensing renewals for district adopted titles. This year the software budget request includes a new cost for the licensing of Smart Notebook software. Teachers have been using the Smart Notebook software since the first SmartBoard was installed in 2006. This is the first year that the upgrades to the software will require a purchase. Additionally, the cost for renewing our district anti-virus software is due this year. It had previously been covered under a three-year contract.

Other titles include :

- Vision –Used in all schools as a classroom management tool in the labs.
- File Maker – Used as the database for the IEP, RTI, 504's, report cards and other school specific data collections
- Microsoft OVES, OLV –Licensing for Windows operating system (computers and servers) and Office suite
- Adobe CS6– Used by various classes offered in the High School as the publishing suite
- Sophos– District-wide antivirus software – this was under a three year contract that is up for renewal this year.
- Solid Works and Chief Architect– Used by students taking CAD, computer aided design at the high school
- Typing Master – District adopted to teach and practice typing skills in grades 2 through 8

Board of Education’s Requested Budget for 2014-2015 INFORMATION TECHNOLOGY SERVICES

Repairs – up 3.4%

Repair dollars include the cost of hardware maintenance contracts/agreements. Whenever possible, multi-year contracts are sought. Multi-year contracts typically provide a discount yielding a savings for the district. These include Cisco SmartNet and 3Com Service Agreement to support the network and VoIP (Voice over IP) infrastructure, and a preventive maintenance contract for the mounted projectors used in the district. The preventative maintenance on the projectors includes a yearly cleaning and evaluation of each projector, it does not include the repair costs incurred throughout the year. Additional dollars are included here for that purpose. The remaining dollars are requested based on past experience with hardware failures of computers, laptops, printers, projectors and all other technologies that are not under warranty due to age.

Equipment – up 37.23%

Dollars allocated for equipment purchases represent the most variable portion of the Technology Department budget. This line has historically been cut. It is also the line that has benefited from unspent dollars at the end of the budget cycle as the result of savings found during the school year. During the 2012-2013 school year, the Town provided \$103,500 from the capital non-recurring account to assist in the replacement of obsolete equipment. The following graph shows the technology equipment dollars versus the BOE budget total. The graph shows that although the BOE budget has increased over time, the technology equipment allotted dollars has trended down.

Board of Education's Requested Budget for 2014-2015 INFORMATION TECHNOLOGY SERVICES

Equipment dollars are spent on maintaining the district's existing level of technology and, when possible, enhancing the technology offered to staff and students. The requested dollars for the 2014-2015 budget year is comprised of those needed to replace obsolete equipment, to address the number one technology priorities of the building administrators, and to continue the deploy of VoIP in the District.

This represents a total request of \$446,756. The details of this request are explained as follows:

Obsolescence - \$355,006

Equipment is determined to be obsolete for a number of reasons. These reasons may be due to educational demands defining required functionality and performance or the products simply degrading over time. The mature equipment becomes difficult to repair. Parts are scarce or no longer available. With the pace that technology is developing, the replacement will always provide functionally richer technology.

The 2013-2014 school year requests included dollars for obsolete replacements. Although these dollars were included in the adopted budget, were redirected to support security initiatives for video surveillance and radios. A major portion of the costs for each of these initiatives were covered by donations. The dollars request for the replacement of obsolete equipment would have primarily addressed obsolete computers and laptops in Hawley and the High School and projectors at RIS. The need to replace these units remains. In addition, the inventory of those items reaching obsolescence during the 2014-2015 school year must be included.

The following table breaks down the cost projection for the next 5 years for obsolete equipment based on current inventory. The unit cost assumed is based on quotes obtained in August of 2013. Each year the quote will be updated before inclusion in the budget request.

		Projection for Obsolete Equipment Replacement									
Budget Year		14-15		15-16		16-17		17-18		18-19	
Total Dollars for Obsolete Replacements		\$287,150		\$457,000		\$886,700		\$426,430		\$310,500	
	EST Cost	QTY	Cost	QTY	Cost	QTY	Cost	QTY	Cost	QTY	Cost
iPad	\$600	91	\$54,600	57	\$34,200	882	\$529,200				
Computer	\$725	30	\$21,750	448	\$324,800	68	\$49,300	286	\$207,350	40	\$29,000
Laptop	\$800	34	\$27,200	50	\$40,000	128	\$102,400	148	\$118,400	25	\$20,000
Projector with mount	\$2,000	24	\$48,000	29	\$58,000	20	\$24,000	44	\$52,800	56	\$67,200
SmartBoard	\$1,700					4	\$6,800	21	\$35,700	27	\$45,900
Mimio	\$690							12	\$8,280	30	\$20,700
Thin Client	\$300	72	\$21,600					13	\$3,900	9	\$2,700
Network Projects											
Switches RIS replacement	\$114,000	1	\$114,000								
VoIP RIS DOJ grant	\$67,856										
Switches replace NHS	\$175,000					1	\$175,000				
Switches replace NMS	\$125,000									1	\$125,000

**Board of Education's Requested Budget for 2014-2015
INFORMATION TECHNOLOGY SERVICES**

The request for dollars to replace obsolete equipment also includes the cost for the migration of the Reed Intermediate School phone system to Voice over IP and the replacement of network switches at Reed as well.

Reed is the last building to be included in the district VoIP system. The Voice over IP (VoIP) implementation in the District began as a joint effort between the District and the Town in 2009. The initial deploy was part of the Municipal Center Project. Since then VoIP has been installed in 4 elementary schools, the middle school, the high school, the EOC, Public Works, and Parks and Rec have all had their phone systems replaced by VoIP. The estimated cost for the Reed Intermediate School is \$67,856. This amount has been submitted under the DOJ grant.

The network switches in use at Reed Intermediate school were purchased at the time that the school was built. They are going on 11 years old and are starting to fail. A reliable network to serve instruction, assessment and communications is needed. Upgrading the switches will help to ensure a reliable network infrastructure with-in the Reed School. The estimated cost for the replacement of the switches is \$114,000.

**Board of Education's Requested Budget for 2014-2015
INFORMATION TECHNOLOGY SERVICES**

Building Administration Priority 1 Technology - \$76,750

Each year the building administrator of each school prioritized requests from their staff and provide it to the technology department for inclusion. Since the dollars requested for the replacement of obsolete equipment is large, only the number 1 priority for each building has been included in the requested technology equipment dollars for 2014-2015. The items included are listed below.

2014-2015 Building Priority 1					
Bldg		Type	Qty	Unit Cost	Total
NHS	Complete wireless access in school (Auditorium, PE Offices, Fitness Room, Dance Studio)	N			\$10,000
NHS	install ceiling mounted projectors in A-wing (Science Dept)	N	9	\$1,200	\$10,800
NMS	Computer Integration - (replace 2 laptop carts and bring qty on cart to class size(25)	R	50	\$675	\$33,750
NMS	Smartboards, and mounting for SS rooms	N	4	\$2,300	\$9,200
RIS	Projection system LMC	N			\$13,000
HAW	Computers - in 2013-2014 budget included in obsolete				
HOM	iPad display (included in Instructional supplies) BG				
MGS	No request				
SHS	No request				
				TOTAL	\$76,750

The items requested above are based on the district's configuration in November of 2013. It represents the needs and the available technology at that time. Prior to purchases being made for the 2014-2015 school year, the list will be reviewed with building administration to determine if and how the need has evolved and whether the solution proposed a year earlier is still the appropriate choice.

Board of Education's Requested Budget for 2014-2015 INFORMATION TECHNOLOGY SERVICES

Smart Balance Preparation - \$ 15,000

In the 2014-2015 school year, the state will require the use of technology for the administration of CMT and CAPT tests. The Smarter Balance consortium along with the state has developed assessments that align to the Common Core State Standards. These assessments will use computer adaptive technology and provide a more accurate measure of each student's mastered skills. It will be a more individualized and accurate assessment while providing timely data and easily accessible reports.

The consortium has published a report that defines the recommended guidelines for hardware specifications. The department budget request will strive to upgrade our equipment to ensure our computers and bandwidth will meet the recommended guidelines. Attaining and maintaining these recommended specifications as they evolve yearly will better position Newtown staff to use our technology for this and other computer-based instruction and assessment.

One of the first questions asked when considering the district's ability to have all appropriate students tested during the windows of testing is: Do we have enough computers?

The testing will be administered to students in grades 3- 8 and grade 11. In the following table, enrollment is based on October 2013.

School	Students to test	Computer location	Number of computers	Ratio
Hawley	158	2 labs and LMC	66	2.4:1
HOM	122	1 lab and LMC	43	2.8:1
MGS	191	1 lab and LMC	34	5.6:1
SHS	193	1 lab and LMC lab	61	3.2:1
RIS	788	2 labs and LMC	78	10.1:1
NMS	856	3 labs and LMC	128	6.7:1
NHS	448	8 labs and LMC	361	1.2:1

All districts interviewed by the consortium operated with an 8:1 to 11:1 student-to-computer ratio and expected to manage processing all students in a three-to-four-week assessment window.

Our schools with the exception of RIS, have a computer-to-student ratio of less than the 8:1. If we limit testing to only hardwired desktop computers. If the 96 laptops available at RIS are considered for use, the student-to-computer ratio can easily be lowered. During October of 2013, the RIS successfully administered the NWEA assessment to students using the laptops proving the viability of their use for testing.

However, the numbers above assume that all usable desktops are dedicated to testing. This poses a significant restriction on the delivery of instruction and student work. In order to mitigate this impact, this budget request included funds to purchase 50 Chromebooks or an equivalent unit that can move between the buildings as needed for testing.

**Board of Education's Requested Budget for 2014-2015
GENERAL SUPPORT SERVICES**

The District General Support Services budget includes the offices of the Superintendent of Schools, Assistant Superintendent, Human Resources and Business Services. These offices are responsible for the district-wide administration of the school system and the Board of Education. The Superintendent's Office has full district responsibility for all educational and operational programs. The Superintendent, as chief executive officer of the Board, ensures that all programs are executed in strict compliance with Board of Education policies, and applicable federal, state and local laws.

The Human Resource Department handles all activities concerned with maintaining an efficient staff for the school system. This includes recruiting and placement, staff transfers, staff accounting and record keeping, certification verification, staff relations and negotiations. This fiscal year, the district negotiated a three-year contract with the administrators represented by the Newtown Association of School Administrators. The cost of this is reflected in the various cost centers of this budget. The FY 2014-15 budget request reflects the contracted salaries and employee benefits for all employees covered by their representative bargaining units. The district will be negotiating with the Nurse's representative for a new contract during the spring of 2015. All other employee group contracts are valid for another year. An allocation of \$30,670 has been included in the district-wide cost center for potential salary increases to be determined by the Board and Superintendent for all staff that are in negotiation and not affiliated with a union.

**Board of Education's Requested Budget for 2014-2015
GENERAL SUPPORT SERVICES**

The Budget and Business Services Department is responsible for all financial and business activities employed in the operation of the school system. This includes budgetary and financial accounting, payroll, purchasing, accounts payable, billing, short and long term forecasting, building accommodation planning and reporting to the Connecticut State Department of Education. This office is responsible for administering employee benefits along with many state and federal compliance requirements.

Payroll currently processes transactions for over 850 active employees including certified and non-certified staff, substitutes, tutors, coaches and system-wide employees. Payments must also be made for such payroll-associated costs including state teachers' retirement, municipal employees' retirement, medical premium cost share, union dues, tax shelter annuities, and over 20 other deductions.

The district uses the Phoenix financial software to process payroll, purchase orders, pay vendors and record budget transactions. The district has internal control procedures that include an electronic approval process for payments to over 2,000 vendors and/or contracts. The Business Office will process, record and track more than \$71M in transactions this year. The district proactively seeks ways to deliver services in the most cost effective way. For example, the district recently acquired a new copier and print service contract which keeps the district's copy costs level for the next several years below prior year costs. We also established a single source contracted bussing service, saving over \$935,000 in the first year. The current and proposed budgets will be lower than the base with a savings that may total \$2.9M over the five year contract period.

Board of Education's Requested Budget for 2014-2015

EMPLOYEE BENEFITS

<i>Object</i>	<i>2011 - 12 Expended</i>	<i>2012 - 13 Expended</i>	<i>2013 - 14 Budgeted</i>	<i>2013 - 14 Current</i>	<i>2014 - 15 Requested</i>	<i>\$ Change</i>	<i>% Change</i>
111 Certified Salaries - Early Retirements	16,000	16,000	16,000	16,000	24,000	8,000	50.00%
200 Employee Fringe Benefits	10,386,515	10,341,864	10,675,831	10,675,831	10,890,053	214,222	2.01%
Total	10,402,515	10,357,864	10,691,831	10,691,831	10,914,053	222,222	2.08%

Employee Fringe Benefits - 77% of this amount is for the medical, prescription and dental program offered to all eligible employees.

Health insurance equivalent premium rates are expected to be about 4% above the current year.

The Town and BOE have combined with an Anthem ASO (Administrative Services Only) plan, while self insuring for all medical claims.

All employee groups are paying a percentage of premium cost as a result of employee negotiations.

Medical and dental premium co-payments for school district employees are as follows:

	<u>Century PPO 20</u>	<u>Century PPO 25/30</u>	<u>Century Comp/Mix</u>	<u>HSA</u>
Administrators			20.0%	18.0%
Teachers	22.0%			18.0%
Custodians	17.0%			13.0%
Educational Assistants		16.5%		13.5%
Nurses (to be negotiated)		15.0%		12.0%
Secretaries/Clerks/Techs	16.0%			12.0%
All other employees	16.0%			12.0%

The Board of Education is offering four medical plans.

Board of Education's Requested Budget for 2014-2015

EMPLOYEE BENEFITS

The employee benefits budget includes the Board of Educations costs for health benefits, dental coverage, workers' compensation, unemployment compensation, early retirement incentive, life and disability insurance, retirement benefits, funding OPEB (Other Post-Employment Benefits), tuition reimbursement, social security, Medicare matching and related professional technical services.

Employee benefits are accounted for and categorized on a district-wide basis.

The FY 2015 budget for health benefits represents approximately 12% of the district's total financial funding requirement. This budget proposal includes an increase of \$245,858 which is based on a 3.2% increase in the health benefit line item.

PLANT OPERATIONS & MAINTENANCE

MISSION/DESCRIPTION

The mission of the facilities department is to support the mission and vision of the school district by providing a safe, clean and secure learning/working environment. We also provide the community with a clean, safe and secure venue for recreation and entertainment activities. This mission in turn provides for the proper maintenance of the school facilities which protects the capital investment of the community..

PLANT OPERATIONS & MAINTENANCE

ADMINISTRATION AND SUPERVISION

The Plant Operations and Maintenance Department is responsible for managing all of the custodial and maintenance services for the Board of Education's buildings. Over the past 10 years, the total occupied space has increased by over 240,000 square feet. In addition to maintaining the Board of Education's buildings and grounds, the department also works cooperatively with the Town and also provides them with goods and services. Oversight of the Plant Operations and Maintenance Department is carried out by the Director of Facilities and one Administrative Assistant.

MAINTENANCE

The Facilities Maintenance staff is responsible for maintaining the buildings of the Newtown School District. The staff of technicians is comprised of one electrician, one plumber, one HVAC tech, one carpenter and one general trade's person for a total of five staff who provide services to approximately 1,004,000 square feet of building space. The trade's staff is responsible for repairs, planned maintenance, projects and emergency services in all school facilities as well as assistance and repairs to Town facilities. The in house staff is supported by outside professionals in areas such as elevator maintenance, masonry repairs, roofing, pest control and others.

PLANT OPERATIONS & MAINTENANCE

BUILDING CONTRACTED SERVICES

Contractual Services includes all of the preventative maintenance programs for the school facilities to ensure proper operations of building safety and environmental equipment. Included but not limited to all fire and burglar equipment, HVAC systems, energy management systems, elevators, emergency power and lighting systems, intercom and telephone systems, water treatment (HOM) and tick control.

410 - BUILDING CONTRACTED SERVICES ~ DETAIL	2014 - 15 Requested
Maintenance of Buildings & Grounds	
Gym Door Service (RIS, MS & HS)	3,500
Emergency Generators (SH, MG, HOM, RIS, MS, HS)	6,000
Elevator Service (HAW, RIS, HS)	17,000
Kitchen Fire Suppression Systems	5,000
Sprinkler System Testing	10,500
Emergency Lights	5,000
Fire Alarm Service	6,000
Fire/Burglar Alarm Monitoring	3,000
Fire Extinguishers	7,500
Septic Tank & Grease Pit Service	10,000
Chemical Pit Cleanouts	4,000
Intercom System	9,000
Telephone System	11,000
Paging System	2,000
Clock & Bell System	3,000
Parking Lot & Field Lighting Systems	5,000
HVAC (complete contract - roof top units HS)	120,000
HVAC (complete contract - roof top units RIS)	70,000
HVAC (partial contracts - HAW,SH,MG,MS)	40,000
HVAC (General PM - HOM)	28,000
HVAC (boiler cleanings & burner service - all schools)	22,000
Duct Cleaning All Schools	10,000
Back flow prevention testing - (all schools)	1,500
Energy Management System	36,000
Water Treatment Systems (HOM)	7,000
ADA Chair Lift Inspections -(HS, MS & HOM)	1,800
Upholstery cleaning program-furniture/stage curtains	4,000
Extermination Services - (all schools)	7,000
Courtyard Maintenance - (SH, MG, RIS, HS)	10,000
Tick Control - (all schools)	10,000
Playground Mulch Program (SH, MG, HOM & RIS)	25,000
Playground safety inspections (HAW, SH, MG, HOM & RIS)	4,300
Repainting parking lines, tree work, bleacher repairs	12,000
Refinish gym floors	8,500
Oil Spill Monitoring (RIS)	1,000
Test & Inspect Roof Top Fans	10,000
Cleaning of Buildings (<i>see detail on following page</i>)	110,000
Sub Total Maintenance Contracted Services	645,600

Board of Education's Requested Budget for 2014-2015

	<i>2014 - 15 Requested</i>
<u>410 - BUILDING CONTRACTED SERVICES ~ DETAIL</u>	
Cleaning and Operation of Buildings	
Refuse Removal	88,000
Extra pickups	3,000
Recycling	15,000
Grease & light bulb recycling	4,000
Sub Total Cleaning Contracted Services	110,000
<u>441 - BUILDING SPACE RENTAL</u>	
Central Offices (Bridgeport Hall) - payable to the Town	70,959
TOTAL BUILDING SPACE RENTAL	70,959
<u>300 - PROFESSIONAL SERVICES</u>	
Asbestos, radon, lead & oil tank testing	20,000
Quarterly HOM & as needed water testing	1,200
Routine engineering & consulting services	7,500
Indoor Air Quality (IAQ) testing as needed	8,000
Expansion, structural & architectural review	6,350
TOTAL PROFESSIONAL SERVICES	43,050

Board of Education's Requested Budget for 2014-2015

PLANT OPERATIONS & MAINTENANCE

CUSTODIAL

The Custodial staff provides year-round services, days and evenings, to District facilities totaling approximately 980,000 square feet. Services provided include assisting educational staff, custodial services, snow removal, minor maintenance repairs, security and services to community users of the district facilities. We also provide services to the Parks and Rec department for all of their recreational activities within the schools facilities.

There are currently 52 full time custodian positions providing services to the District buildings.

PLANT SUPPLIES

Plant supplies include all of the cleaning and maintenance materials required to maintain the school facilities to ensure a clean and safe learning environment. Maintenance supplies include but are not limited to electrical, plumbing, and HVAC components as well as core building supplies, i.e. doors, locks, glass. Custodial supplies include all of the cleaning products used throughout the facilities. Newtown Schools employs only Green Cleaning products in accorda

ENERGY

Energy costs include natural gas, propane, heating oil and electricity for the school facilities. Also included are costs for gasoline and diesel fuel for maintenance and power equipment. The school district works closely with the town to achieve the best rates possible for purchased energy.

- In the area of heating fuel, we have taken advantage of the favorable rates and efficiencies associated with natural gas in recent years. We converted the main (original) boiler plant at Newtown High School to consume natural gas, we are continuing to consume natural gas at the Reed Intermediate School and through the capital improvement plan for the Hawley School, and approximately two thirds of that school will consume natural gas as well.
- In the area of electricity, we have been able to work with CL&P along with lighting consultants to capture rebates for completing lighting upgrades at Hawley School, Sandy Hook School, Middle Gate School, and Head O Meadow utilizing Occupancy Sensors, Induction, LED and CFL lighting technologies. We recently completed a similar project at Newtown High School and Reed Intermediate School to retro-fit the parking lot lighting utilizing Induction technology also using CL&P funding.

Board of Education's Requested Budget for 2014-2015 PLANT OPERATIONS & MAINTENANCE

Electricity – Projected & Historical Usage

Electricity

The Board of Education signed an agreement with Connecticut Light & Power Small Business Energy Advantage program that would retrofit all high energy fixtures and replace them with efficient lighting. The process began towards the end of 2012 beginning with the elementary schools and finishing with the High School in October of 2013.

In May of 2013, the Board of Education joined forces with Solar Sound Systems and Altus Power Management to make a switch towards renewable energy. Newtown Middle School installed solar panels in an effort to move towards a more efficient and cleaner energy source. In addition to the savings in energy use, Altus Management has granted the Newtown Board of Education a 20% discount from current CL&P rates.

**Board of Education's Requested Budget for 2014-2015
PLANT OPERATIONS & MAINTENANCE**

Natural Gas

Over the past few years, natural gas is becoming a more reliable, cleaner and cost effective way of heating . As Governor Malloy's energy plan began to unfold in the middle of 2013, three of the main gas companies filed comprehensive joint expansion plans with the DEEP outlining how they will meet the gas expansion goals. The plan outlines a structured approach to add approximately 280,000 new gas customers over the next ten years.

The Board of Education has recently converted two thirds of the Hawley school to gas and we are currently looking at adding Middle Gate and the Middle School in the near future.

Below, you can see the estimated cost savings of converting Hawley's boilers over to natural gas. This is our first year of conversion which demonstrates a conservative result.

**Board of Education's Requested Budget for 2014-2015
PLANT OPERATIONS & MAINTENANCE**

Natural Gas

Over the past three years, the BOE was locked into a consortium pricing contract through the Town. This contract expires at the end of June 2014. Beginning in July, we will be able to purchase our gas supply directly from Yankee gas, thus resulting in a savings of approximately twenty thousand dollars.

Note: Supply rate for 2013-14 is based on actual rates and estimated rates

**Board of Education's Requested Budget for 2014-2015
PLANT OPERATIONS & MAINTENANCE**

Oil

The district has been successful in reducing its reliance on oil over the years through specific energy control measures in addition to diligent maintenance of all its heating equipment. Reed school began using natural gas in the 2007-08 year and the high school began using gas with the latest addition at the beginning of the 2011 calendar year. Hawley school is now partially heated (approximately 2/3rds) by burning natural gas, further reducing our expected oil consumption.

The budget for oil is based in the same price as the current year at \$3.1619 per gallon (oil has not yet been procured for the 2014-15 school year). However, the budget is \$47,429 less because the quantity expected to be purchased is 15,000 gallons less for the Hawley School.

NOTE: These estimates are subject to change based on near term market conditions.

Board of Education's Requested Budget for 2014-2015

PLANT OPERATIONS & MAINTENANCE

BUILDING AND SITE MAINTENANCE PROJECTS

Building and Site Maintenance Projects are projects which need to be planned in advance, are not considered routine, are costly and below the \$265,367 threshold to be considered in the Towns' Capital Improvement Plan (CIP). We have developed a 5 year prioritized plan for budgeting purposes.

In recent years due to difficult economic times, building and site maintenance projects have been drastically underfunded. This practice of deferring much needed maintenance has had a serious effect on the future budget and as new projects/issues are being added to the appendix a very daunting amount of work faces the School District. For more detail regarding building and site maintenance projects please refer to the proposed list of projects for this year and the five year plan on the pages that follow.

School bus transportation services are provided by two main bus contracts, All-Star Transportation and MTM Transportation. In addition there is one (1) Owner Operator along with several other smaller private vendors. These vehicles are routed and dispatched by the All-Star dispatch center and also by Special Education for specific situations. The current system of bus routes for local regular education requires that we travel a total of approximately 4,525 miles per day, or close to 828,000 miles per year, utilizing 52 vehicles. The main fleet is comprised of 32 diesel buses with a 77 capacity and 12 diesel 47 passenger capacity buses. The MTM fleet is comprised of four 47 passenger diesel buses, one 71 passenger diesel, three diesel wheel chair buses, and 14 mini vans. The District is 60.38 square miles, the second largest town in Connecticut and provides transportation for approximately 6,000 students.

The Newtown Transportation system serves seven public schools, and three private schools in Newtown: St. Rose, Fraser Woods, and Housatonic Valley Waldorf School. We also service the Nonnewaug High School Vo-Ag program in Woodbury, Henry Abbott Technical School in Danbury, the Danbury Magnet School in Danbury, and Center for the Arts programs in both Trumbull and North Haven. The district is also required to provide transportation to children who are placed out of district for special needs. This service requires an additional 14 vehicles of varying capacity and specialized configurations.

Board of Education's Requested Budget for 2014-2015

- We will be entering our third year of a five year contract with All Star Transportation. The increase to this contract will be 3.12%.
- We are currently in our last year of a five year contract with MTM.

Board of Education's Requested Budget for 2014-2015

TRANSPORTATION SERVICES

Tier One- High School/Middle School

High School/Middle School uses 44 buses to transport 1,716 High School Students and 857 Middle School students for a total of 2,754 students with a total of approximately 745 stops.

MTM transports four students to Nonnewaug High School using a van.

Henry Abbott Tech students ride the High School/Middle School buses and board a bus to HAT at the High School. There are 33 HAT students.

Tier Two – Reed/St. Rose

St. Rose uses 30 buses to transport 220 students making 149 stops. Reed uses 36 buses with approximately 574 stops for 788 students for a total of 1,007 students.

Total number of stops in Tier Two is 723.

We also service Fraser Woods and Housatonic Valley in Tier Two.

These schools are transported by All-Star. They use two buses for Housatonic Valley and two vans for Fraser Woods.

We have 49 students at Fraser Woods and 29 students at Housatonic Valley with a total of 32 stops.

Danbury Magnet students ride the Reed/St Rose buses to Reed school and then board a bus to the Magnet school. We have 35 Magnet students.

Tier Three – Hawley, Sandy Hook, Middle Gate, and Head O'Meadow

Hawley uses 9 buses to transport 349 students making 169 stops.

Sandy Hook uses 10 buses and 2 vans to transport 395 students making 188 stops.

Middle Gate uses 10 buses and 2 vans to transport 418 students making 198 stops.

Head O'Meadow uses 8 buses and 1 van to transport 303 students making 158 stops.

This schedule is repeated in the afternoon for local schools.

Henry Abbott Tech, Nonnewaug, and Magnet students are taken home directly or dropped at centralized locations from school at the end of the day.

Mid-Day Pre- Kindergarten

MTM uses 3 vans to transport 20 students making 20 stops for pre-k at Newtown High School.

1 van for 2 students for 2 stops at pre-k at Head O'Meadow School.

Board of Education's Requested Budget for 2014-2015

TRANSPORTATION SERVICES

Newtown Public Schools makes every effort to run an effective, cooperative and cost efficient transportation operation taking community values into consideration. By consolidating bussing services under one specialized carrier the district has realized prior year savings of approximately \$700,000. These reduced costs will be with the district for the next three years and will be in the neighborhood of \$2.9 million.

TRANSPORTATION SERVICES

Details for Student Transportation

Local Transportation	
All Star - Portion of local allocated to Magnet transportation (1, 77P buses @ 1/2 daily rate of \$330 for 179 days)	(\$29,535)
All Star - Portion of local allocated to private (St. Rose) transportation (7, 47P buses @ 1/3 daily rate of \$302)	(\$45,977)
All Star - Portion of local allocated to private (St. Rose) transportation (22, 77P buses @ 1/3 daily rate of \$330)	(\$165,073)
All Star - Portion of local allocated to private (H. Valley) transportation (2, 47P buses @ 1/2 daily rate of \$326 for 165 days)	(\$53,790)
All Star - Portion of local allocated to private (F. Woods) transportation (2, 47P buses @ 1/2 daily rate of \$326 for 170 days)	(\$55,420)
All Star - 32 full size @ \$330/day x 183 days	\$1,932,480
All Star - 9 47 Passenger buses @ \$302/day x 183 days	\$497,394
All Star - 3 47 Passenger buses @ \$326/day x 183 days	\$178,974
All Star - TAP Program 1 65 Passenger @ \$280/day x 143 days	\$40,040
MTM - Route 49 RIS - 1/3 daily rate for \$315	\$19,215
All Star - NPS 1/2 day runs (14 buses, 15 days @ \$84 per run)	\$17,640
All Star - 2 late buses at NMS 2x per week for 38 weeks @ \$75 per run - NEW	\$11,400
All Star - 2 late buses at NHS 2x per week for 38 weeks @ \$75 per run - NEW	\$11,400
All Star - Exam days (23 buses, 8 days @ \$56 per run)	\$10,304
TOTAL LOCAL TRANSPORTATION	\$2,369,052

Private Transportation	
All Star - St. Rose portion of trans. (22, 77P buses @ 1/3 daily rate of \$330 x weighted avg # students)	\$165,073
All Star - F. Woods. 2 buses @ 1/2 daily rate of \$326 for 170 days	\$55,420
All Star - H. Valley. 2 buses @ 1/2 daily rate of \$326 for 165 days	\$53,790
All Star - St. Rose portion of trans. (7, 77P buses @ 1/3 daily rate of \$330 x weighted avg # students)	\$45,977
MTM - St. Rose, Route 48 @ 1/3 daily rate of \$315	\$19,215
All Star - St. Rose 14 buses, 6 half days @ \$84 per run	\$7,056
All Star - St. Rose - NPS closed, 31 buses, \$220 pe bus	\$6,820
TOTAL PRIVATE TRANSPORTATION	\$353,351

Magnet Transportation	
SDE Grant for ACES & CES Magnet Schools \$1,300/student x 13 students estimated	(\$16,900)
SDE Grant for Danbury Magnet School \$1,300/student x 35 students	(\$45,500)
MTM - RCA/CES Program - mon - thur @ \$177 for 148 days	\$26,196
All Star - Danbury Magnet - 1/2 daily rate @ \$330 for 179 days (\$165)	\$29,535
MTM - ACES / ECA, mon - thur for 148 days @ \$200 per day	\$29,600
TOTAL MAGNET TRANSPORTATION	\$22,931

Vo-Tech Transportation	
Nonnewaug Transportation - 4 hrs. day = 3 hr/day rate @ \$150 + 1 hr @ \$55 = \$215 x 181 days	\$38,915
MTM Abbott Tech Bus \$280 x 180 days	\$50,960
MTM Late Bus to Abbott Tech - Van \$77 x 182 days - p.m. only	\$13,650
TOTAL VO-TECH TRANSPORTATION	\$103,525

Local Special Ed. Transportation	
EXCESS COST REIMBURSEMENT FOR STARR PROGRAM	(\$15,611)
EXCESS COST REIMBURSEMENT FOR LOCAL SPED	(\$8,639)
MTM - w/c vehicle #45 @ \$315 pr/day for 183 days	\$57,645
MTM - w/c vehicle #46 @ \$315 pr/day for 183 days	\$57,645
MTM - w/c vehicle #47 @ \$315 pr/day for 183 days	\$57,645
MTM - Preschool Midday Runs - 3 bus runs @ \$75 ea for 183 days	\$41,175
MTM - Route #48 - NHS/MG @ 2/3 daily rate of \$315	\$38,430
MTM - Route #49 - NHS/PRE @ 2/3 daily rate of \$315	\$38,430
MTM SUMMER HOM PROGRAM - 6 buses for 19 days @ \$260	\$29,640
MTM - aide for #45, 5.75 hr/day = 1052.25 total hours @ \$19 pr/hr	\$19,988
MTM - Hawley van - a.m/p.m @ \$100 per day	\$18,300
MTM - Aide for route #48 @ 5 hr/day, \$19 per/hr	\$17,385
MTM - aide for #46, 4.25 hr/day = 777.75 total hours @ \$19 pr/hr	\$14,782
MTM - Aide for route #49 @ 3.5 hr/day, \$19 per/hr	\$12,160
MTM - Aides 4 hour per day for 6 mini & 2 w/c buses for 19 days	\$11,552
MTM SUMMER HOM PROGRAM - 2 W/C buses for 19 days @ \$280	\$10,640
MTM - aide for #47, 3 hr/day = 549 total hours @ \$19 pr/hr	\$10,431
MTM - Van #69 - one way from NH to home @ \$37.50 per run	\$6,863
MTM - Van #89 - one way @ \$37.50 per run	\$6,863
MTM - STARR program W/C bus for 19 days @ \$280	\$5,320
MTM - Various Vans for SPED programs - one way, 100 hours @ \$37.50	\$3,750
MTM - Various Vans for EXCEL programs - one way, 100 hours @ \$37.50	\$3,750
MTM - HOM SMART Program - 19 days @ half day rate of \$125	\$2,375
MTM - w/c busses for various field trips	\$2,500
MTM - 1 vehicle for RIS program, 10 days @ \$225 per day	\$2,250
Aides for various vans - 100 hours @ \$19 pr/hr	\$1,900
MTM - Preschool Midday Run, Fridays only - 1 bus run @ \$37.50 ea for 43 days	\$1,613
MTM - Misc vans for 20 hours @ \$50 pr/hr	\$1,000
MTM - Aides for misc. vehicles, 20 hours @ 19 pr/hr	\$380
MTM - Aides for summer STARR program. Total 76 hours @ \$19 pr/hr	\$1,444
TOTAL LOCAL SPECIAL ED TRANSPORTATION	\$451,604

Board of Education's Requested Budget for 2014-2015

CONTINUING EDUCATION PROGRAM

Newtown Continuing Education plans, coordinates, and operates all evening adult education and all district non special education summer programs (K-12).

Members of the general public can enroll in enrichment courses offered in computer skills, the fine and applied arts, recreation, financial management and personal enrichment on a tuition basis. Classes generally meet for two to three hours once per week during a spring and fall semester. Instructors from businesses and the community staff this program. These classes afford the general public access to the schools that they might not otherwise have. Studies have shown that attendees of community education classes tend to vote favorably for school budgets.

Newtown's summer session offers enrichment, make up credit and skill building courses on a tuition basis. Upon recommendation, elementary students in Grades 1-3 can attend small group tutorials in Language Arts or Math during a four-week period. Students in Grades 2-4 can attend a four-week program emphasizing Language Arts, Writing, and Math. Kindergarten students who are recommended can attend a four week program. Students in Grades 5 and 6 can attend a four-week program emphasizing Math and Language Arts. Students in middle school can attend four-week classes in English, Math, or Science. High school students can earn make-up credit through the successful completion of summer courses. This program operates for four weeks with each student completing 30 hours for each half-credit course or 60 hours for each one-credit course. In addition to the make up credit, students can attend a four week class in physical education/health in order to fulfill their junior physical education/health requirement. By completing this 60-hour course students will earn 0.50 credits.

Summer enrichment classes for students in Grades K-6 are offered through the four-week summer Music and Arts program, SMART. Additionally, students are offered three one week computer programming classes. These program offerings change from year to year. They afford the students the chance to explore interests that they might not have time for in the course of the regular school year.

Summer session programs are housed at various schools within the districts.

*data not yet available

NOTE: Number of students comes from "District Student Enrollment" information and includes out of district tuition students

* Receipts from school generated fees, previously used to offset board expenditures, was transferred to Town as revenue and added to the board's budget, after budget approval. Budget increase shown for 2003-04 is before this transfer to budget.

** The Legislative Council provided an additional \$200,000 from non-recurring capital funds.

*** Did not find reference to which, the Board of Finance or the Legislative Council, made the \$250,000 reduction.

Board of Education's Requested Budget for 2014-2015

HISTORY OF EXPENDITURES

NEWTOWN'S NET CURRENT EXPENDITURE

States' comparative rankings to other towns

Expenditure based on state's Net Current Expenditures which exclude regular education transportation, tuition revenue, capital expenditures and debt service. Expenditure ranking for 2013-14 will not be available until after the current fiscal year is closed and reported to the state.

Board of Education's Requested Budget for 2014-2015

Historical Staffing Over the Years

CONCLUSION

<u>Percent of Budget Increases</u>	
2009 – 2010	.43%
2010 – 2011	1.33%
2011 – 2012	1.16%
2012 – 2013	.57%
2013 – 2014	3.63%
2014 – 2015	0.00%

<u>This Budget Fulfills:</u>	
	Board Budget Goals
	Contract Compliance
	Mandates
	Action Related to Declining Enrollment

Average budget increase over six years = 1.19%

It's all about the students....

PROJECT SERV GRANT

The School Emergency Response to Violence (SERV) program legislation was developed under the U.S. Department of Education, Emergency Supplemental Act in 2002. Project SERV, for which we applied, will cover costs that are reasonable, necessary and essential for education related activities that are intended to restore the learning environment following a violent or traumatic event. This program also supports activities that assist LEA's in managing the practical problems created by a traumatic event that has produced an undue financial hardship upon the LEA. The Project School Emergency Response to Violence program began with an appropriation of \$10,000,000, to remain available until expended, and to be obligated from amounts made available in Public Law Administering office of the SERV program is the Office of Safe and Healthy Students (OSHS)

This program funds short-term and long-term education related services for local educational agencies (LEA's) and institutions of higher education (IHE's) to help them recover from violent or traumatic events in which the learning environment has been disrupted. There are two parts to this grant, the immediate service grant and the extended services grant. LEAs and IHEs may apply for both types of assistance under Project SERV. Applicants that wish to apply for both Immediate Services and Extended Services grants must submit a separate application for each grant.

Immediate service grants are intended to provide a limited amount of funds to meet acute needs and restore the learning environment. The application process for the immediate services grant is not intended to be burdensome. This grant typically funds up to \$50,000.

Extended Services grants are intended to address the long-term recovery efforts that may be needed following a traumatic event. Extended Services applications are considered unsolicited grant applications and undergo a rigorous internal review by the Office of Safe Drug-Free Schools and the Office of the General Counsel. After review by staff members, the application is peer reviewed by an outside panel before being considered for funding. This grant typically funds up to \$250,000.

Newton Public Schools applied for the Immediate Services Grant under SERV which was approved and awarded on May 22nd 2013 in the amount of \$1,303,195. Over the summer, Board of Education personnel prepared a new budget draft for phase II of the Immediate Services Grant. The budget application has recently been submitted and we are awaiting approval from U.S. Department of Education.

Board of Education's Requested Budget for 2014-2015

DOJ Grant

The United States Department of Justice announced Tuesday, December 17, 2013, that it awarded a grant for more than \$1.5 million to be used towards organizations and groups that supported first responders, victims and the community. Of this amount, the BOE was awarded \$59,442 to help offset the additional security that was required for the last fiscal year. The grant comes to Newtown through the federal Office for Victims of Crime (OVC), which channeled the funds through the state's judicial department for disbursement. The total grant awarded for Board of Education expense, including this security was for \$511,016. The balance covered various building hardening projects, tuition and employee assistance which was funded from the Board budget of last year. The BOE has recently prepared a request for funding 4 security guards in phase II of this grant which should be submitted in early 2014.
