

**NEWTOWN BOARD OF EDUCATION
MONTHLY FINANCIAL REPORT
DECEMBER 31, 2014**

SUMMARY

The sixth financial report of the 2014-15 fiscal year to date is attached. In the month of December, the Board of Education spent approximately \$5.4M; \$3.5M on salaries, \$1.9M for all other objects.

This report continues with “Anticipated Obligations” which reflect the best current estimate for expenditures beyond active encumbrance. The entries included here represent the estimated amounts for the offsetting receipts related to the excess cost and agency placement grants, based on the first estimate of what the districts’ expected expenses are that have been reported to the State on December 1st. The estimate is based on a reimbursement rate of 75% which is subject to change.

All the main object accounts remain in a positive balance position for this month with the exception of ‘Other Purchased Services’ which includes the Out of District Tuition account. The excess cost will cover part of this shortfall.

Professional Services which include legal services, psychological and medical evaluations is now exceeding budgeted by \$95,000, Tuition - Out-of-District is in an excess position of \$45,000, and electricity due to the higher price will exceed the budget by \$63,000. About half of this total expected shortage of over \$200,000 will be covered by various naturally occurring balances, while the rest will need to be covered by targeted spending restrictions such as in the supply accounts and holding on building and site improvement projects.

This budget is extremely lean and needs to be carefully monitored. Forecasting anticipated obligations will be ongoing from now on and will modify the balances required to end the fiscal year within the allotted budget.

EXPENSE CATEGORY CONDITIONS

100 SALARIES

The total salary budget is expected to be adequate to continue all the planned services for the balance of the year with a projected balance in certified salaries from substitutes and a similar surplus in non-certified primarily from the custodial and maintenance salaries account.

200 EMPLOYEE BENEFITS

Current estimates are on track with the EAP (Employee Assistance Plan) and medical expenses expected to produce a slightly improved balance.

300 PROFESSIONAL SERVICES

Psychological and medical evaluations along with legal services will cause this line item to exceed budget by about \$95,000 at this time. Significant increased activity in these areas may very well continue increasing the need here even more.

400 PURCHASED PROPERTY SERVICES

This group of accounts provides services necessary to keep the buildings running, along with classrooms repairs and rentals. Several emergency repairs occurred at the schools including the following: Hawley – exterior door repair \$802, plumbing repairs \$1,310, tamper switch \$1,275, snake main line \$305; Sandy Hook School – boiler fittings \$500, elevator repairs \$367; Middle Gate – lighting repairs \$1,047, kitchen exhaust repairs \$850, roof leak \$2,402, boiler repair \$1,882, telephone lines \$575; Head O’Meadow – heating valve repair \$2,083, repair light poles \$680; Reed – repair chain link fence \$1,150; Middle School – repair chain link fence \$3,200; High School - replace humidifier tank \$2,416, repair intercom system \$849, debris removal from pumps \$1,125.

500 OTHER PURCHASED SERVICES

Transportation looks like it will provide positive balance of approximately \$10,000. Insurance goes over slightly due to a policy need for our underground storage tanks. The Tuition – Out of District account is currently in the red and will continue to be underfunded after taking the excess cost grant into account. Additional tuitions and mediated settlements are responsible for these additional costs. This account will need to be monitored closely as additional expenses here will fall to the bottom line.

600 SUPPLIES

This group of accounts includes the electricity, gas, and fuel along with supplies, materials and textbooks. Electricity will be short by \$63,000 due to the rise in prices and the new contract. Natural gas currently is within budget and fuel oil purchases are priced protected based on our fixed price and quantity contract. The fuel for vehicles (diesel and gasoline-buses) is currently projecting a favorable balance of approximately \$23,000. This is a result of the new bid for out of district transports beyond what was originally anticipated. All other supply accounts can be controlled to reserve funding for other budgetary overages.

700 PROPERTY

Current estimates continue to be on track with no change.

800 MISCELLANEOUS

Current estimates continue to be on track with no change.

The budget will continue to be carefully monitored as it is very tight and any subsequent issues or opportunities will be presented as necessary.

REVENUE

No revenues were received during the month of December.

OFFSETTING REVENUE

No changes in this report since last month.

Ron Bienkowski
Director of Business
January 13, 2015

TERMS AND DEFINITIONS

The Newtown Board of Education's Monthly Financial Report provides summary financial information in the following areas:

- Object Code – a service or commodity obtained as the result of a specific expenditure defined by eight categories: Salaries, Employee Benefits, Professional Services, Purchased Property Services, Other Purchased Services, Supplies, Property, and Miscellaneous.
- Expense Category – further defines the type of expense by Object Code
- Expended 2013-14 – actual (unaudited) expenditures of the prior fiscal year (for comparison purposes)
- Approved Budget – indicates the town approved financial plan used by the school district to achieve its goals and objectives.
- YTD Transfers - identified specific cross object codes requiring adjustments to provide adequate funding for the fiscal period. This includes all transfers made to date.
- Current Transfers – identifies the recommended cross object codes for current month action. (No current transfers indicated)
- Current Budget – adjusts the Approved Budget calculating adjustments (+ or -) from transfers to the identified object codes.
- Year-To-Date Expended – indicates the actual amount of cumulative expenditures processed by the school district through the month-end date indicated on the monthly budget summary report.
- Encumbered – indicates approved financial obligations of the school district as a result of employee salary contracts, purchasing agreements, purchase orders, or other identified obligations not processed for payment by the date indicated on the monthly budget summary report.
- Balance – calculates object code account balances, subtracting expenditures and encumbrances from the current budget amount, indicating unobligated balances or shortages.
- Anticipated Obligation – is a column which provides a method to forecast expense category fund balances that have not been approved via an encumbrance, but are anticipated to be expended or remain with an account balance to maintain the overall budget funding level. Receivable revenue (i.e., grants) are now included in this column which has the effect of netting the expected expenditure.

- Projected Balance – calculates the object code balances subtracting the Anticipated Obligations. These balances will move up and down as information is known and or decisions are anticipated or made about current and projected needs of the district.

The monthly budget summary report also provides financial information on the State of Connecticut grant reimbursement programs (Excess Cost and Agency Placement Grants and Magnet Grant Transportation). These reimbursement grants/programs are used to supplement local school district budget programs as follows:

Excess Cost Grant – this State of Connecticut reimbursement grant is used to support local school districts for education costs of identified special education students whose annual education costs exceed local prior year per pupil expenditure by 4 ½. Students placed by the Department of Child and Family services (DCF) are reimbursed after the school district has meet the prior year’s per pupil expenditure. School districts report these costs annually in December and March of each fiscal year. State of Connecticut grant calculations are determined by reimbursing eligible costs (60%-100%) based on the SDE grant allocation and all other town submittals. Current year receipts results from the state reporting done in December. We receive notice of what we are eligible for in early April.

Magnet Transportation Grant – provides reimbursement of \$1,300 for local students attending approved Magnet school programs. The budgeted grant is \$62,400 for this year while the expected receipt is now \$67,600.

The last portion of the monthly budget summary reports school generated revenue fees that are anticipated revenue to the Town of Newtown, Fees include:

- High school fees for three identified programs with the highest amount of fees anticipated from the high school sports participation fees.
- Building related fees for the use of the high school pool facility, and
- Miscellaneous fees.
