NEWTOWN SCHOOL HEALTH SERVICES INFORMATION FOR PARENTS OF INCOMING KINDERGARTENERS

Our mission is to promote student health and safety, so that your student can be the best learner possible.

## Newtown Elementary School Nurses

Hawley:	Juliann Johnson, RN, BSN	203-426-7668
Head O'Meadow:	Maddy Allen, RN, BSN	203-426-7672
Middle Gate:	Cynthia Rybczk, RN	203-426-7664
Sandy Hook:	Mariza Borges, RN, BSN	203-426-2194

## HEALTH OFFICE HIGHLIGHTS FOR INCOMING KINDERGARTENERS

## PHYSICAL EXAM AND IMMUNIZATION COMPLIANCE

A completed <u>Health Assessment Record</u> (physical) with <u>required immunizations</u> for Kindergarten entry is due BEFORE the start of school to allow the nurse time for review and processing before classes begin. <u>Students are not permitted to</u> <u>start school without the required information on file in the Health Office.</u> Student's physical exam must not be more than 12 months old by the beginning of the school year.

### MEDICATION

Any MEDICATIONS that a student needs to take during the school day, including over the counter medicine, needs a <u>Medication Authorization</u> filled out and signed by both the physician and the parent. Please bring all necessary medication to the Health office, do not put medications in your child's backpack.

# CHANGE OF CLOTHES

In case of bathroom accidents or spillage, please keep a change of clothes in the bottom of your student's backpack in a labeled ziplock bag. There are limited clothing items available in the Health Office for emergency use.

## **ILLNESSES**

Students will be sent home for the following reasons:

- -Vomiting/diarrhea
- -Temperature over 100 degrees
- -Persistent, uncontrollable cough
- -Contagious illness
- -Feeling too ill to eat or to participate in class

## ILLNESS RELATED ABSENCES

When calling school with your child's absence, please state any significant illness. This allows the nurse to track illnesses such as pneumonia, strep infections, Covid and flu.

# IMPORTANT INFORMATION TO SHARE WITH THE SCHOOL NURSE

Please call your school nurse to discuss any significant medical diagnoses and/or medications (including asthma, allergy induced anaphylaxis, diabetes, seizure disorders, etc.) before the start of school.
