In its 30th Year, this camp cultivates a child's inner artist by encouraging imagination, creativity, and exploration through various art programs.

Art not only awakes the inner artist but allows a child to practice self-expression through movement, music, painting, and more, creating a safe and fun environment while fostering social and emotional well being.

Choose (3) art classes from our many catalog offerings allowing your artist to create all they can imagine. On the last Friday of the two-week session, your artist will have the chance to showcase their creations in a confidence-boosting, Art Show.

## YOGA

It’s hard to believe that young children can get stressed out, but they definitely do. The everyday hectic routines that children lead—homework, taking tests, peer pressure, family issues, starting a new school, heavy school bags, endless after-school activities, lack of sleep—can all become very stressful. Yoga is a wonderful outlet for children to counter pressures, to release stress and pay attention to how they feel. Yoga allows children to redirect their energy in a positive way by using fun, child-friendly techniques that help them to calm their minds and bodies, especially at times when they may be experiencing anxiety of nervousness. When kids release their stresses, they have less to distract them and more energy to focus and learn. Yoga for Youngsters is a fun, lively class with games, nutrition, poses breathing, and chill-axation! Sharing, kindness, and self-love come to life through creative breath work, mindful movement, cooperative games, guided meditations, and a cozy relaxation period that travels off the mat.
